# Royal Roads Military College

## Calendar 1983-84

### Victoria, B.C.

## **NOTICE**

Officer cadets at the Canadian Military Colleges must select a program of study which is compatible with their element of the Canadian Forces and with the Military Officer Classification selected. The Canadian Forces reserves the right to limit enrolment in any given program of studies, or to select the College at which a program of studies shall be taken.

## THE ACADEMIC YEAR

### CALENDAR OF EVENTS — 1983-84

#### First Semester

Aug 23	Tues	Cadet Officers return
Aug 26	Fri	BOTC Graduation/Recruits arrive
Aug 27-Sept 5	Sat-Mon	Administration
Sept 6	Tues	Classes start
Sept 21	Wed	Honours Day
Oct 7-10	Fri-Mon	Stand down (no classes)
Oct 28	Fri	Mid-semester academic reports due
Dec 7	Wed	Classes end
Dec 8	Thurs	Exams start
Dec 16	Fri	Exams end
Dec 19	Mon	0900 — Results due Registrar
Dec 20	Tues	0900 — Faculty Board/Faculty Council
Dec 20	Tues	Christmas Ball
Dec 21-Jan 4	Wed-Wed	Christmas Leave
Jan 4	Wed	Cadets return
Jan 5-10	Thurs-Tue	Military Training
Jan 9-10	Mon-Tues	Supplemental Examinations

#### Second Semester

Jan 12	Thurs	Classes start
Feb 17-20	Fri-Mon	Stand down (no classes)
Feb 24	Fri	Mid-semester academic reports due
Apr 13	Fri	Classes end
Apr 16-26	Mon-Thurs	Second semester examinations
Apr 30	Mon	0900—Results due Registrar
May 1	Tues	1400—Faculty Board/Faculty Council
May 9-11	Wed-Fri	First Year supplemental exams
May 11	Fri	Convocation, Academic Awards, Sunset Ceremony
May 12	Sat	Graduation Parade and Ball
May 13	Sun	Successful cadets to summer duties
May 17-18	Thurs-Fri	Senior Years supplemental examinations

## **CANADIAN MILITARY COLLEGES**

### **ADVISORY BOARD 1983**

#### **CHAIRMAN**

C.F. Moir, BSc, BEd, MA

#### **VICE-CHAIRMAN**

K. Francoeur-Hendriks, BEd, MEd (Adm)

#### **PAST CHAIRMAN**

Rear Admiral (Retired) R.N. Murdoch, CD, PScA, ndc

#### **REGIONAL DIRECTORS**

Lieutenant-Colonel (Retired) J. Denoncourt, CD, BEd, MEd

Commander (Retired) D.M. Johnston, CD, BA, LLB

P.P.M. Meincke, rmc, BSc, MA, PhD

#### **MEMBERS**

Brigadier-General (Retired) J.P.A. Cadieux, CD, rmc, BEng, MSc, MBA, PEng

W.H. Critchley, BSc, MIA, PhD

Général (Retired) J.A. Dextraze, CC, CBE, CMM, DSO, CD

W.N. Gardner

Captain (N) (R) M.L. Hadley, CD, BA, MA, PhD

J.J. Kinley, CD, BSc, BEng, MSc, PEng

Lieutenant-Colonel (Retired) P.R. Lavallée, CD, rmc, BA, BEng, Eng

W.E. Ludlow, BSc, BEd, MEd, EdD

E.A. Mansfield, rmc, BA, BEd, PhD (Ed Adm)

E.E. Newton, BEd, BA, MEd, PhD (Ed Adm)

Rear Admiral (Retired) R.H. Roberts, CD, MD, ChB, FRCP (C), FACP

C.M. Powis, rmc, BA, BComm

D.H. Robertson

P. Schwartz, BA

Major-General (Retired) G.H. Spencer, OBE, CD, rmc, psc, idc, BSc, DEng, PEng

M.M. Soule, rmc, BA, LLB

Colonel (Retired) J.E. Terry, CD, BEng, BEd, PEng

Colonel (Retired) M. Turner, CD, rmc, psc, BEng, PEng

#### **EX-OFFICIO MEMBERS**

Deputy Minister of National Defence

Chief of the Defence Staff

Vice Chief of the Defence Staff

Assistant Deputy Minister (Personnel)

Chief Research and Development

#### **SECRETARY**

Major J.P. Van Boeschoten, CD, pcsc, BA

## **OFFICERS OF ADMINISTRATION**

President — The Minister of National Defence, The Honourable J. Gilles Lamontagne,  
PC, MP

Commandant — Captain (N) W.J.A. Draper, CD, pfsc\*

Principal and Director of Studies — E.S. Graham, BSc, MSc (Queen's), PhD (MIT),  
FSC, FOAS

Vice-Commandant — Lieutenant-Colonel D.L. McCarthy, CD, rmc, pfsc, pcsc, asc,  
BA (RMC)\*

Dean of Science and Engineering — H.J. Duffus, ndc, BA, BASc (Brit Col), DPhil  
(Oxon), PEng — Professor of Physics

Dean of Arts — W. Rodney, DFC and Bar, BA (Alberta), MA (Cantab), PhD (London),  
FRGS, FRHistS — Professor of History

Chief Administrative Officer — Major R.W. Kuntz, CD, rmc, pfsc, BSc (RMC), MBA  
(Ottawa)\*

Registrar — Wing Commander (Ret'd) M.D. Thom, CD, rmc, pfsc, pcsc, aws, BASc  
(BritCol)\*

Assistant Registrar — Captain J.R. DeLong, CD, rmc, plsc, BSc (RMC)\*

ADP Manager — J.L. Dorscher, BSc (Calgary)

Chaplains —

Chaplain (P) — Captain G.L. Zimmerman, BSc, MDiv

Chaplain (RC) — Captain R.J. Paulin, rmc, BSc (RMC), BTh (Newman)

Comptroller and Logistics Officer — Lt(N) J.L. Chow, BSc, BA (Queen's) (posted Jan.  
84)

— Lieutenant D. Gri, BSc (Alberta)

Staff Officer Cadets and Military Training — Major P.R. Learmonth, CD, rmc, psc, BA  
(RMC)\*

Squadron Commanders —

Lieutenant (N) P.C. Henderson, cmr, BSc (CMR)

Captain J.D. Slater, rmc, BEng (RMC)\*

Captain M.W.T. Haché, rmc, BA (RMC)

Captain R.J. Beardmore, CD, rmc, plsc, BEng (RMC)\*

Personnel Administrative Officer — Captain A.D. MacKenzie, CD

Librarian — to be appointed.

Assistant Librarian — Susan E. Day, BA (Queen's), MLS (Toronto)

Director of Athletics — Captain H.R. Schild, CD

Physical Education and Recreation Officer — Captain H.G.W. Pronk, CD

University Liaison Officers —

Captain D.L. Browne, CD

Captain K. Hur, CD, asc, BSc (McGill)

\*Graduate Royal Roads

## SENIOR STAFF

## EMERITI

C.S. Burchill, BA, MA, BSc, Emeritus Professor of History (1971)  
J.M.C. Meiklejohn, MBE, BSc, Registrar Emeritus (1972)  
A.E. Carlsen, BA, MA, PhD, Emeritus Professor of Economics (1974)  
H.R. Grigg, BSc, MSc, PhD, Emeritus Professor of Physics (1978)  
G.F. Dalsin, BSc, MA, Emeritus Professor of Mathematics (1978)  
W.G. McIntosh, BSc, PEng, Emeritus Professor of Engineering (1978)  
A.G. Bricknell, BSc, MSc, PhD, ARCS, FCIC, FRIC, Emeritus Dean of Science (1979)  
B. Aghassian, MA, Emeritus Professor of French (1979)  
J.A. Izard, BEng, MASc, PEng, Emeritus Professor of Engineering (1979)  
D.W. Hone, BA, PhD, Emeritus Professor of Physics (1981)  
J.K. Kinnear, BA, MA, Emeritus Professor of Physics (1981)  
H. Montgomery, BA, MA, PhD, FCIC, Emeritus Professor of Chemistry (1982)  
A.D. Wallis, BA, MA, Emeritus Professor of Political Science (1982)

## OFFICERS OF INSTRUCTION

A. Allard, BA (Brit Col) MA (Berkley), Instructor in French  
W. Babinchuk, BSc (Sask), MSc (Brit Col), Assistant Professor of Mathematics  
M.R. Barr, BSc, MSc, PhD (Brit Col), MCIC, Associate Professor and Head of the Department of Chemistry  
G.M. Barrow, BASc, MASc (Brit Col), PhD, (Berkley), Assistant Professor of Chemistry  
J.A. Bayer, BA (Brit Col), MA (Carleton), PhD (London), Assistant Professor of Political Science  
J.A. Boutilier, BA (Dalhousie), MA (McMaster), PhD (London), Associate Professor and Head of the Department of History and Political Economy (on leave of absence 1983-84)  
Captain (N) (Ret'd) A.K. Cameron, CD, Special Lecturer in History  
E.R. Chappell, rmc, BSc (Queen's), MASc (Brit Col), MEIC, MCSCE, MCASI, PEng, Associate Professor and Head of the Department of Engineering\*  
Captain D.L. Christensen, rmc, BSc (RMC), Special Lecturer in Mathematics\*  
Major R.H. Clark, CD, BA, MA (RMC), Special Lecturer in History and Political Science  
J.S. Collins, BSc (Dalhousie), BEng, MEng (NSTechColl), PhD (Washington), MIEEE, MEIC, MCSEE, PEng, Associate Professor of Engineering  
H.J. Duffus, ndc, BA, BASc (Brit Col), DPhil (Oxon), PEng, Professor of Physics and Dean of Science and Engineering

## SENIOR STAFF

P.J.S. Dunnett, BSc (Bradford), MA, PhD, (SFU), Associate Professor of Economics and Acting Head of the Department of History and Political Economy

J.M. Gilliland, BSc, MA (Brit Col), PhD (Alberta), Assistant Professor of Physics

E.S. Graham, BSc, MSc (Queen's), PhD (MIT), FCS, FOAS, Professor of Chemistry and Principal and Director of Studies

A. Hadley, BA (Brit Col), DipEd (Victoria), Instructor in French

E. Ingram Ellis, MA (Oxon), PhD (London), Special Lecturer in History

H. Jorch, BSc (Waterloo), MSc, PhD (Guelph), Assistant Professor of Physics

D.P. Krauel, BSc (McMaster), MSc (Dalhousie), PhD (Liverpool), Associate Professor and Head of the Department of Physics

G.M. Lancaster, BSc (Liverpool), PhD (Sask), Professor and Head of the Department of Mathematics

Major S.E. Lipin, CD, rmc, BEng (RMC), MSc (Brit Col), Special Lecturer in Chemistry\*

W.T. MacFarlane, BA (Sask), MSc (Alberta), PhD (Oregon State), Associate Professor of Physics

J.W. Madill, CD, BSc (CE) (Manitoba), MSc (CE) (Queen's), EdD, (WVU), MEIC, MCGS, MCSCE, PEng, Associate Professor of Engineering

M.S. Madoff, AB (Michigan), PhD (Brit Col), Assistant Professor of Literature

W.T. Mann, BComm (Brit Col), FCGA, Special Lecturer in Accounting

R.F. Marsden, rmc, BSc (RMC), PhD (Brit Col), Assistant Professor of Physics

A.G. Martel, BA (SFU), MA (Fletcher), PhD (Toronto), Assistant Professor of History

Major K.R. Merkley, CD, BA,(RMC), MA (Queen's), Special Lecturer in History and Political Economy

F. Milinazzo, BSc, PhD (Brit Col), Associate Professor of Mathematics

G. Morgan, BA (Loyola), MA (Phil), MA (Lit), PhD (Montreal), MNI, CMMC, Professor and Head of the Department of Literature and Philosophy

C. Plows, BA (Montreal), Instructor in French

Captain M. Plul, CD, BA, BEd (Ottawa), MSW (Brit Col), Special Lecturer in Military Leadership and Management

M.J. Press, BSc, MSc, (McG), PhD (SFU), Associate Professor of Physics

C.N. Ramkeesoon, BA (U of Wales), MA (Dalhousie), PhD (Western), Assistant Professor of Literature

K.J. Reimer, BSc, MSc (Calgary), PhD (Western), MCIC, Associate Professor of Chemistry

Major G.D. Resch, CD, BA (Brandon), MA (Sask), Special Lecturer and Head of the Department of Military Leadership and Management

J. Robichaud, BA (Edmunston), BAEd (Montreal), Licence théologie (Laval), Instructor in French

M.G. Robinson, BSc, PhD (Dunelm), Associate Professor of Chemistry

W. Rodney, DFC and Bar, BA (Alberta), MA (Cantab), PhD (London), FRGS, FRHistS, Professor of History and Dean of Arts

P.J. Schurer, BSc, MSc, PhD (Groningen), Associate Professor of Physics

## *SENIOR STAFF*

P. Smart, BEd, BSc (Alberta), MEd (Brit Col), MPA (Victoria), PhD (Walden), Assistant Professor of Mathematics

R.C. Snell, BSc, MSc (Queen's), PhD (Brit Col), Associate Professor of Mathematics

C. Tchalekian, BSc, MA (Iowa), PhD (Texas), Associate Professor and Head of the Department of Second Language Training

A. Tétreault, BA (Montreal), Instructor in French

M.D. Thom, CD, rmc, pfsc, pesc, aws, BASc (Brit Col), Associate Professor of Engineering and Registrar\*

J. van Campen, BA, BSW (Laval), MA Linguistics (SFU), Instructor in French

M.J. Wilmut, ndc, BSc (Sir George Williams), MA, PhD (Queen's), Associate Professor of Mathematics

W.W. Wolfe, BSc (Brandon), MSc, PhD (Queen's), Associate Professor of Mathematics (on leave of absence 1983-84)

S.D. Wray, BSc (Adelaide), BSc (Hons), MSc, PhD (Flinders), Assistant Professor of Mathematics

\*Graduate Royal Roads

## GENERAL INFORMATION

### SENATE

The Minister of National Defence (Chancellor of the College and President of the Canadian Military Colleges), the Commandant (Vice-Chancellor and Chairman), the Principal and Director of Studies, the Dean of Science and Engineering, the Dean of Arts, the Registrar (Secretary), Dr. D.P. Krauel (term expires 31 May, 1984), M.G. Robinson (term expires 31 May 1985), Dr. P.J.S. Dunnett (term expires 31 May, 1986).

The Director of the RRMC Regional Sub-Committee of the Canadian Military Colleges Advisory Board and the Vice-Commandant of the College may attend meetings of the Senate.

### COMMITTEES

#### THE COLLEGE COUNCIL

The Commandant (*Chairman*), the Principal and Director of Studies, the Vice-Commandant, the Dean of Science and Engineering, the Dean of Arts, the Registrar (*Secretary*), the Head of the Department of Engineering, the Staff Officer Cadets and Military Training, and the Chief Administrative Officer.

#### THE FACULTY COUNCIL

The Principal and Director of Studies (*Chairman*), the Vice-Commandant, the Dean of Science and Engineering, the Dean of Arts, the Staff Officer Cadets and Military Training, the heads of the departments of Chemistry, Engineering, History and Political Economy, Literature and Philosophy, Mathematics, Military Leadership and Management, Physics, Second Language Training, as well as the Chief Librarian, the ADP Manager, and the Registrar (*Secretary*).

#### THE FACULTY BOARD

The Principal and Director of Studies (*Chairman*), the Vice-Commandant, faculty members of the rank of lecturer and above, the officers of the military wing, the Chief Librarian, the Chief Administrative Officer, and the Registrar (*Secretary*).

### AD HOC COMMITTEES

#### THE LIBRARY COMMITTEE

M.R. Barr, S.E. Day (Secretary), J.M. Gilliland, E.S. Graham (ex officio), R.W. Kuntz, J.W. Madill, M.S. Madoff, A.G. Martel, C.N. Ramkeesson, G.D. Resch, W. Rodney (Chairman), M.J. Wilmut, Head Librarian (to be appointed).

#### THE PICTURES AND RELICS COMMITTEE

D.L. Christensen, J.R. DeLong, J.M. Gilliland. Secretary and Curator - (to be appointed), Chairman - (to be appointed), and one cadet appointed by the Vice-Commandant.

## *GENERAL INFORMATION*

### **THE CADET ACADEMIC ADVISORS**

- a. First Year Cadets, P. Smart (Champlain Flight), W.T. MacFarlane (MacKenzie Flight), M.S. Madoff (LaSalle Flight), K.J. Reimer (Hudson Flight), P.J. Schurer (Cartier Flight), R.F. Marsden (Fraser Flight), M.J. Wilmust (First Year UTPM Cadets).
- b. Second Year Cadets, M.R. Barr (General Science), E.R. Chappell and J.W. Madill (Engineering), G.M. Lancaster (Honours Science and Engineering with Honours Math), G.A. Morgan and W. Rodney (Arts/Administration).
- c. Third Year Cadets, M.J. Press (Oceanography), J.S. Collins (Computing Science), J.A. Bayer (Arts).
- d. Fourth Year Cadets, D.P. Krauel (Oceanography), R.C. Snell (Computing Science), P.J.S. Dunnett (Arts).

### **THE LECTURESHIPS COMMITTEE**

J.A. Bayer, J.S. Collins, D.P. Krauel, M.S. Madoff, A.G. Martel, K.J. Reimer (Chairman), G.D. Resch, J.D. Slater.

### **THE ARTS RESEARCH GRANTS COMMITTEE**

J.A. Bayer, P.J.S. Dunnett, E.S. Graham (ex officio), C.N. Ramkeesoon, M.G. Robinson, W. Rodney (Chairman), M.D. Thom (Secretary).

### **THE TRAINING AND RESEARCH AIDS COMMITTEE**

M.R. Barr, J.A. Bayer, J.R. DeLong (ex officio), J.M. Gilliland (Secretary), J.W. Madill (Chairman), J.D. Slater, R.C. Snell, S.D. Wray.

### **THE ADMISSIONS COMMITTEE**

M.R. Barr, J.A. Bayer, R.J. Beardmore, E.R. Chappell, J.R. DeLong (Secretary), W.J. Draper, H.J. Duffus, P.J.S. Dunnett, J.M. Gilliland, E.S. Graham, M.W.T. Haché, P.C. Henderson, G.M. Lancaster, P.R. Learmonth, W.T. MacFarlane, J.W. Madill, M.S. Madoff, A.G. Martel, D.L. McCarthy, K.R. Merkley, H.G.W. Pronk, C.N. Ramkeesoon, G.D. Resch, M.G. Robinson, W. Rodney, H.R. Schild, P.J. Schurer, J.D. Slater, R.C. Snell, C. Tchalekian, M.D. Thom (Chairman), S.D. Wray.

### **COMPUTER USERS COMMITTEE**

J.S. Collins, S.E. Day, J.R. DeLong, P.J.S. Dunnett, D.P. Krauel, R.W. Kuntz, M.J. Press (Chairman), K.J. Reimer, and one member of the Cadet Wing (to be appointed).

### **COMPUTER SCIENCE CURRICULUM COMMITTEE**

H.J. Duffus (Chairman), P.J.S. Dunnett, J.S. Collins, M.J. Press, K.J. Reimer, R.C. Snell.

## *GENERAL INFORMATION*

### **THE FACULTY-CADET ACADEMIC COMMITTEE**

The Principal and Director of Studies (Chairman), the heads of the academic departments, the Registrar, the DCWC (Secretary), the CFLs of the first slate of cadet officers, a UTPM cadet, and three other cadets.

### **THE COMMITTEE ON PROMOTIONS AND TENURE**

The Principal and Director of Studies (Chairman), and the heads of the academic departments.

### **THE COMMITTEE ON GRADUATE FELLOWSHIPS**

M.R. Barr, J.A. Bayer, E.R. Chappell, H.J. Duffus, M.J. Wilmut (Chairman).

**HATLEY CASTLE**

## **GENERAL INFORMATION**

### **THE CANADIAN MILITARY COLLEGES**

#### **ROLE**

The role of the Canadian Military Colleges is to educate and train Officer Cadets and commissioned officers for a career of effective service in the Canadian Forces.

#### **OBJECTIVES**

The objectives of the Canadian Military Colleges are:

- a. to prepare and motivate Officer Cadets for effective service as commissioned officers in the Canadian Forces by —
  - (1) providing a university-level education in appropriate disciplines designed on a broad base to meet the unique needs of the Forces;
  - (2) developing qualities of leadership;
  - (3) developing the ability to communicate in both official languages and to understand the principles of biculturalism;
  - (4) developing a high standard of personal physical fitness;
  - (5) stimulating an awareness of the ethic of the military profession; and
- b. to improve the educational background of commissioned officers in the Canadian Forces by providing undergraduate and post-graduate courses in appropriate fields.

### **ROYAL ROADS MILITARY COLLEGE**

#### **HISTORICAL SKETCH**

The story of Hatley Park — rechristened Royal Roads from the offshore anchorage in the Straits of Juan de Fuca — has its beginnings in the singleness of purpose and dogged determination of one man. No history of the estate would be complete without some mention of the man in whose mind Hatley Park was conceived and through whose efforts it was brought to birth.

The Honourable James Dunsmuir was born at Fort Vancouver, Washington on 8 July 1851, the oldest son of Robert Dunsmuir, a Scotish miner who, at the time of his son's birth, was on his way from Ayrshire to "Vancouver's Island" to prospect for coal. It was not until 1869, however, when James was eighteen years old, that Robert, prospecting on his own, finally struck the rich seam of coal at Wellington, near Nanaimo, B.C. He raised sufficient capital, acquired 2,000 acres of land, and started operations which proved so successful that before long he had bought out the other three partners in the venture to become the sole owner. During this time, James himself had worked through all the stages of mining and had risen to the position of manager in his father's business. Under his management, the daily output of coal quickly rose from 30 tons to 1,500 tons. After his father's death in 1889, James devoted himself to the development of the collieries at Wellington and Comox, laid out the townsite of Ladysmith, and initiated the Ladysmith-Vancouver ferry service.

## *GENERAL INFORMATION*

It was only natural that his prominence in business should lead him into politics. He was elected to the Legislature in 1898 and became Premier in 1900; but, having no taste for public life, he resigned in 1902. He later served a three-year term as Lieutenant Governor of the Province.

It was during the early years of this century that he purchased the Hatley Park estate comprising about 650 acres. The original Hatley Park house stood on the site that is now the parade ground. This house had been completely destroyed by fire while its owner was in England. Having amassed a huge fortune, James now turned his attention to the building and planning of the new estate to which he intended to retire.

He commissioned Samuel McLure, a Victorian architect, to design the "Castle", and Messrs Bett and Hall, landscape artists of Boston, Massachusetts, to plan the gardens and surroundings. Local stone, trimmed with Valdez and Saturna Island sandstone, was used in the building's construction. Its impressive exterior is matched only by the lavishness of the interior appointments — oak and rosewood panelled rooms, baronial fireplace, teak floors, and specially made lighting fixtures. James is quoted as saying: "Money doesn't matter — just build what I want." The building is 200 feet long and 86 feet wide; the turret is 82 feet high. The wall surrounding the estate, also built of local stone, cost over \$75,000; the Conservatory, costing a like amount, was at one time filled with white orchids imported from India; a large banana tree grew in the centre under the dome. The rooms of the house were filled with flowers from the Conservatory throughout the year. Six miles of road interlaced the estate, and a hundred men were employed in the gardens. There were a number of other buildings on the estate to provide for the needs of the large household, but many of these have now been demolished — the vast refrigeration plant; the cow stables; the slaughter house and smoke house; the three silos, each of 100 ton capacity; the reserve water tank to the south of Belmont Drive; the old stable near the bridge to the east of the present fields; to say nothing of the Chinatown to accommodate 80 to 120 gardeners. There remain, however, the model dairy and the stables, which were of solid brick and concrete construction. The "Castle" was completed in 1908, and the Dunsmuir family took up residence in that year.

Early in 1910, James sold his collieries, his coal rights in the Esquimalt and Nanaimo Railway belt, and all his business connections therewith to Messrs. MacKenzie and Mann, railway promoters, for \$11,000,000. He thus separated himself from all former business with which the name of Dunsmuir had been associated. He then retired to enjoy his beautiful home, his yacht "Dolaura", his shooting, fishing, golf, etc. He died in May 1920, at the age of 69. His wife, formerly Laura Surles of Georgia, lived on at Hatley Park with her daughter Eleanor until she died in August, 1937. Eleanor died six months later.

For the next three years, the estate was left in the hands of a caretaker. In November 1940, it was purchased by the Dominion Government for \$75,000 to begin its career as a Naval Training Establishment. No time was lost; early in 1941, HMCS "Royal Roads" was commissioned as an Officer Training Establishment for short-term probationary RCNVR sub-lieutenants and operated as such until October 1942.

During this time, some 600 officers underwent training. In October 1942, after a lapse of 20 years, the training of naval cadets was re-established in Canada, and the spirit of the old Royal Naval College of Canada was reborn in HMCS "Royal Roads".

## GENERAL INFORMATION

After a brief history of five years, the Royal Canadian Naval College became, in 1947, the RCN-RCAF Joint Services College. The following year, with the admission of army cadets, Royal Roads became a tri-Service Cadet College, the Canadian Services Colleges Royal Roads. In 1968, the name of the College was changed to Royal Roads Military College.

### FACILITIES

#### **The Castle**

The Castle was built in 1908. From 1941 until 1943, when Grant Block was completed, it accommodated the cadets of the Royal Canadian Naval College, after being commissioned as HMCS "Royal Roads". It is now the administrative centre of the College. It houses the Commandant, Principal, Vice-Commandant, Registrar and staff, Chief Administrative Officer, Comptroller and Logistic Officer, Personnel Administrative Officer, Staff Officer Cadets, and the University Liaison Officers.

#### **Coronel Memorial Library**

The library building was officially opened 1 November 1974 by the late Honorable Walter S. Owen, QC, LLD, former Lieutenant-Governor of British Columbia, and was dedicated to the memory of four members of the First Class of the Royal Naval College of Canada who were lost in action at the Battle off Coronel on 1 November 1914.

Planned by Robert Harrison Associates of Vancouver, B.C., the building was designed to harmonize with its park-like setting, and to be adjacent to Nixon Block, the cadet dormitory. It satisfies both criteria. The library comprises 20,600 square feet, has a capacity of 80,000 volumes and includes faculty offices, a conference room and audio visual facilities for cadets.

The current library collection includes 75,000 bound volumes, a subscription list of over 550 periodicals, and a growing collection of microfilms, recordings, films, and slide transparencies.

#### **Grant Block**

Grant Block, completed in 1943, is the major centre of academic instruction. It was named after Captain J.M. Grant, first Commanding Officer of HMCS "Royal Roads".

This building houses a large general chemistry laboratory, capable of accommodating 48 students, and smaller laboratories used for advanced chemistry and chemical or biological oceanography experiments. A Coastal Marine Science Laboratory, an Applied Fluid Dynamics Laboratory, a Dental Clinic, a Medical Inspection and Treatment Area, and the Cadets' dining facilities are also located in this building.

#### **Computer Systems**

The main computer facility for teaching, research and administration at the College is based on a new Honeywell DPS 8/52C mainframe with ten megabytes of memory and 1.3 billion bytes of disc storage. The peripherals include about thirty terminals plus two Tektronix 4113 and one 4114 graphics terminals and a Calcomp 1015 plotter.

## *GENERAL INFORMATION*

Software includes Pascal, FORTRAN 77, Basic, LISP, APL, IMSL, Cobol, Plot 10 IGL, SPSS, IDS/II Data Base, etc.

The College has recently acquired several microcomputer-based systems for use in the Computer Science and laboratories of other teaching disciplines. This equipment includes eight Apple IIs, one Apple III, one Commodore Super Pet, one HP85, two HP 87s and four superbrains.

Construction will start on a new facility to house the Computer Systems resources in the Fall of 1983.

### **Nixon Block**

Nixon Block is the accommodation building. It includes about 150 rooms, and also contains common rooms, and a dry canteen. Squadron Commanders' offices are also located in Nixon Block.

This fine building was officially opened by Her Royal Highness, Princess Mary, the Princess Royal, on 17 October 1955. It bears the name of the late Commander E.A.E. Nixon, RCN, who was the Commanding Officer of the first Royal Naval College of Canada, situated from 1917-1922 in Halifax, Kingston, and finally in HMC Dockyard, Esquimalt, B.C.

### **Mess Decks**

The Mess Decks originally housed the stables of the estate. It was reconstructed in 1941 and used as accommodation for single members of the ship's company of HMCS "Royal Roads", below commissioned rank. It was also used as classroom space by the cadets before completion of Grant Block.

An indoor rifle range, Non-Commissioned Officers' Mess and the Cadet Gunroom are now located in this building. The Cadet Gunroom consists of a lounge, dance floor and games rooms. In addition, there is also a smaller separate lounge which is used as a "clubhouse" by college sports teams. On Friday nights, the Cadet Gunroom serves as a movie theatre while on Saturday evenings dances are frequently scheduled. The Cadet Gunroom is the centre for cadet social functions at the college.

### **Swimming Pool**

The Pool, built in 1957, measures 23 metres long, 10 metres wide, and 3½ metres at the deep end where there are one-metre and three-metre diving boards. The water circulates through a closed filter system and the temperature is maintained at 25°C.

### **Physics Building**

Extensive alterations to two of the original buildings of the Dunsmuir estate have transformed them into the physics laboratories and little remains to betray their humble beginnings as the Tudor-style dairy and cattle barns. The buildings have been divided into a number of large rooms to accommodate each of the laboratory courses and a number of smaller rooms with special facilities for physical oceanography and computer science. Third and fourth year students also have opportunities to participate in projects in the research laboratories located in the Physics Building and Grant Block.

## GENERAL INFORMATION

The teaching and research laboratories are well equipped with modern apparatus to demonstrate principles and conduct experiments in the fields of classical and modern physics, electronics, physical oceanography, and computer science. The laboratories have a number of terminals which are hardwired into the College computer and many of the experiments are based on microcomputers which are also used to acquire and analyze the experimental data.

### **Gymnasium**

The physical training centre, built in 1942, is of frame construction. The floor is marked to include basketball (one regulation and two lesser size courts), badminton (three courts), volleyball (two courts), and European team hand ball.

### **Tennis Courts**

There are five asphalt tennis courts for the use of officer cadets during recreational training and on weekends. Two are marked by figure 9 on the Plan of the College, and three are by the Sooke Gate Field.

### **Squash Courts**

Two squash courts are housed within the pool building; both are marked for softball (English) rules of play.

### **Sports Fields**

Within the scenic setting of the College grounds there are three soccer pitches, one rugger field, two ball diamonds, a  $\frac{1}{4}$  mile (400 metres) track, and a 6.1 kilometre cross country course.

### **Boat House**

The boat house and jetty replaced the original boat house belonging to the estate, which was located immediately south of the lower lake. This is the centre of all boat pulling and sailing activities. Special orders are published for the use of all boats at the boat house.

## **OCEANOGRAPHIC RESEARCH VESSEL**

The Ta-yut (Chinook Indian dialect meaning Inside-the-Bay) is a nine metre fiberglass hulled vessel of Fraser River gillnetter design suitably equipped to provide the advanced Oceanography classes with practical experience in acquiring samples and data for laboratory work and research projects. The boat is powered by a 225-hp Volvo in-board-outboard engine, and the installed research equipment includes a depth sounder, hydraulic winch, radar, mini-range positioning system, digital conductivity temperature/depth probe, side-scan sonar, sub-bottom profilers and magnetometer. Data can be processed with onboard microcomputers or digitally recorded for further processing in the research laboratory.

The College is also able to use Esquimalt based DND vessels and to obtain time on the west coast fleet of federally funded scientific ships.

## **GENERAL INFORMATION**

### **OFFICER CADET ORGANIZATION**

The Officer Cadets are organized into a wing of four squadrons. This organization controls officer cadet life at the College, within certain limits laid down by the Commandant. Officer Cadets of the second, third, and fourth years hold appointments from Cadet Wing Commander to Cadet Section Commander, and receive practical training in leadership by being responsible, under the guidance of Regular Force officers, for the discipline, progress, and efficiency of the groups under their command. To give as many Officer Cadets as possible an opportunity of receiving this valuable training, the slate of cadet officers is changed during the academic year at the discretion of the Commandant.

Every committee at the College dealing with cadets has strong cadet representation. This gives the representatives an insight into the problems of administering sports and entertainment, including the budgeting of funds.

### **RECREATION CLUBS AND REP TEAMS**

All Officer Cadets take part in compulsory physical education and intramural sports program. They are also encouraged to participate on one of the College Representative Sports teams and/or to belong to one or more of the College Recreational Clubs.

College Rep teams come under the control of the Director of Athletics. The College participates in the Totem Conference in Basketball, Curling, Volleyball and Soccer and in the Lower Vancouver Island Rugby League. Other College Rep teams such as wrestling, waterpolo, fencing, shooting, cross country running, hockey and sailing compete in various tournaments and invitational events throughout B.C. and the Western United States.

Royal Roads has a variety of Recreational Clubs which are supervised by the College Recreational Council chaired by the Staff Officer Cadets and Military Training (SOC & MT). Each club has an Officer Cadet President who reports to the SOC & MT through the Physical Education and Recreation Officer. College Rec clubs are broken down into two categories as follows

PARA MILITARY	CULTURAL/HOBBY
Alpine Outdoors	Auto
Archery	Camera
CASI	Dance
Flying	Debating
Karate	Radio
Parachuting	Scriblerus
Scuba	War Games
Ski	Sailboarding

Royal Roads also has a College yearbook, the "LOG", and a College newspaper, the "TRICORN", which are published by a committee of Officer Cadets under the supervision of a Senior Staff member.

### **ROYAL ROADS BAND**

The Royal Roads band serves two purposes. It serves as a recreational outlet for the musically inclined cadets and also lends itself to performance of a military parade function. Under the direction of a professional musician from the Canadian Forces

**A UNIVERSITY DEGREE**

AND A QUEEN'S COMMISSION

## **GENERAL INFORMATION**

School of Music, the band provides an excellent opportunity for those cadets with musical ability to continue their training. Although some musical experience is desirable, many cadets have joined with little knowledge of music and have now learned to play an instrument well. The musical facilities and music library at Royal Roads enable the cadet band to perform at parades, mess dinners, and concerts. Recent off-shoots of the band include a stage band, a rock band, and a 15-piece pipe band. Any cadet with musical training is strongly encouraged to join this group.

### **CATEGORIES OF STUDENTS**

Three different categories of students may attend RRMC. These are:

- a. Officer Cadets — Officer Cadets are admitted into the first year at RRMC under the Regular Officer Training Plan (ROTP), the Reserve Entry Training Plan (RETP), or the University Training Plan — Men (UTPM), as full time students. Officer Cadets complete their first two years of training at RRMC and then proceed to RMC or CMR to complete the final two years of their degree program, unless pursuing a Bachelor of Arts or Bachelor of Science degree program at RRMC.
- b. Officers — Students attending RRMC under the University Training Plan — Officers (UTPO).
- c. Special Students — Other members of the Canadian Forces taking one or more courses at RRMC on a part-time basis.

### **THE REGULAR OFFICER TRAINING PLAN (ROTP)**

The defence program at home and abroad has created a demand for a large number of officers to meet current and future needs. This is especially true in the technical fields. To meet the demands of this program, the ROTP was introduced in 1952.

The purpose of the ROTP is to provide the principal source of highly qualified officers for the Canadian forces. The plan gives young Canadians the opportunity of gaining a university education and a permanent commission in the Canadian Forces.

Under this plan, applicants who have been accepted for entry at the Canadian Military Colleges enroll in the Regular component of the Canadian Forces. Some candidates may be offered ROTP support at a civilian university, provided they have been admitted to that university to a program of study that is eligible for ROTP support. On successful completion of their training, Officer Cadets will be promoted to commissioned rank in the Canadian Forces.

Successful applicants are enrolled on a Short Service Engagement for an initial nine-year period of service at Her Majesty's pleasure, and thus are assured of all benefits to Regular Force officers.

Under this plan, the costs of tuition, uniforms, books and instruments, and other essential fees for the duration of the program of studies are borne by the Department of National Defence. In addition, an Officer Cadet is paid a monthly salary from which there are deductions for income tax, pension plan, supplementary death benefit contributions, and for rations and quarters charges. Free medical and dental care is provided through the entire training period. Annual leave with full pay is granted according to regulations.

## **GENERAL INFORMATION**

An Officer Cadet is obliged to maintain a satisfactory academic, military, and physical standard throughout the program. An Officer Cadet who fails a year may, on the recommendation of the College and the element concerned, be permitted to attend a repeat year at his own expense (see the section on Fees and Allowances) and, if successful, be reinstated to full pay and allowances.

An Officer Cadet who is enrolled under the ROTP may apply for release without obligation between 1 November and up to, but not including, the first day of the second academic year. Thereafter, an ROTP Officer Cadet who seeks release shall reimburse the Crown for all expenses incurred by reason of attendance at a Canadian Military College or civilian university. If he is unable to pay the costs prior to release, he may sign a promissory note or he may elect to serve, as an Officer Cadet, a period appropriate to the indebtedness.

Regulations and procedures are established whereby Regular Officers may obtain release prior to reaching compulsory release age, unless a state of emergency exists. Former members of the ROTP are subject to the same arrangements, except that, in recognition of the subsidization that has been provided, release prior to completion of the Short Service Engagement will be considered only under special and unforeseen circumstances. Release in such circumstances will be subject to reimbursement of all or part of the cost of subsidization.

The day after he has received his degree on graduation from the Royal Military College of Canada, Royal Roads Military College, or le Collège militaire royal de Saint-Jean, an Officer Cadet is promoted to commissioned rank in the Regular component of the Canadian Forces, provided that he has also obtained complete qualifications.

## **THE RESERVE ENTRY TRAINING PLAN (RETP)**

Since 1961, provision has been made to have up to 15 per cent of the annual ROTP intake at the Royal Military College of Canada, Royal Roads Military College, and le Collège militaire royal de Saint-Jean accepted as Reserve Entry cadets. Therefore, young men who wish to enter any of the Canadian Military Colleges, other than through the ROTP, may apply for admission as Reserve Entry cadets. Reserve Entry Officer Cadets receive the same education and training as ROTP Officer Cadets, but they are required to pay fees to defray the costs of tuition, clothing, books, instruments, laundry, dry cleaning, meals, and accommodation during the academic year, according to the scale of fees set out in the section on Fees and Allowances. Reserve Entry cadets may transfer to the ROTP at any time during their College course, in which event they would pay no further fees and would receive the same financial benefits as ROTP cadets. Reserve Entry cadets are committed to serve in a component of the active Reserve Forces upon graduation and commissioning. The admission requirements for Reserve Entry cadets are the same as those for cadets who enter under the ROTP.

The purpose of the RETP is to provide a limited number of vacancies at the Canadian Military Colleges for those young men who would like to have military training along with their education, but who are not prepared to commit themselves to a Service career at the time of entry. All Reserve Entry cadets are required to take summer training with the component of their choice, for which they receive pay and allowances.

## **GENERAL INFORMATION**

The day after he has received his degree on graduation from one of the Canadian Military Colleges, a Reserve Entry Officer Cadet is promoted to commissioned rank in the Reserve component of the Canadian Forces, provided that he has obtained complete military qualifications.

Attention is drawn to the Dominion Cadetships and to the Royal Military College Club of Canada Foundation Scholarships, which are found in the section of the calendar dealing with Cadetships and Scholarships.

### **THE UNIVERSITY TRAINING PLAN — MEN (UTPM)**

Since 1973, provision has been made for serving members of the Canadian Forces who qualify for subsidization under the UTPM to take their degree programs at the Canadian Military Colleges. Approximately 10 UTPM candidates enter Royal Roads Military College each year under this scheme.

Training under the UTPM is limited to serving men and women of the Regular Force. A selected applicant undergoes academic training identical with that under the ROTP, but with a slightly modified military and athletic program while at the college. The summer military training is identical with that of the ROTP. Except for certain differences in pay and terms of service, the policy and procedures for the UTPM are identical with those for the ROTP as prescribed in CFAO 9-12. The UTPM is therefore a modification of the ROTP and its purpose is the same: to train selected candidates to become career officers in the Regular Force. Like one's counterpart in the ROTP, an Officer Cadet in the UTPM will be selected to attend a Canadian Military College (CMC) or a university.

### **THE UNIVERSITY TRAINING PLAN — OFFICERS (UTPO)**

The UTPO supplements other means of obtaining career officers with university degrees in the regular force. Serving officers of the regular forces who have sufficient academic background to enable them to obtain a baccalaureate degree in two or less academic years, and who meet the other requirements as specified in CFAO 9-40, are eligible to apply for the UTPO.

Royal Roads currently offers BSc and BA degree programs of study. Science applicants should, as far as possible, have completed Math, Physics, and Chemistry courses equivalent to those listed in the RRMC Calendar for the first two years of a Science or Engineering Degree Program. Arts applicants should have completed History and Political Science courses equivalent to those listed in the RRMC Calendar for the first two years of an Arts Degree Program.

## **GENERAL INFORMATION**

### **ADMISSION INFORMATION**

Information on ROTP and RETP may be obtained from any of the following:

- a. Commanding Officer of any Canadian Forces Recruiting Centre;
- b. Director of Recruiting and Selection, National Defence Headquarters, Ottawa, Ontario, K1A 0K2.
- c. Registrar, Royal Roads Military College, FMO Victoria, British Columbia, V0S 1B0;
- d. Registrar, Royal Military College of Canada, Kingston, Ontario, K7L 2W3; or
- e. Registrar, le Collège militaire royal de Saint-Jean, Québec, J0J 1R0.

Applications for admission should be made as early as possible in the academic year prior to entry. Applications are normally initiated through the Canadian Forces Recruiting Centre closest to the home of the applicant.

Application must be accompanied by a birth certificate and certificate of educational achievement, as specified in the instructions sent to all applicants.

Serving members interested in the UPTM should refer to CFAO 9-13.

Serving Officers interested in the UTPO should refer to CFAO 9-40.

Officers or men wishing to enrol as special students at RRMC must apply in writing to the Registrar, giving details of previous education and indicating the course or courses desired. All such candidates will be interviewed personally at the College regarding their course selection, at a time to be set by the Registrar, normally about three weeks before the start of classes each semester.

### **ADMISSION TO ROYAL ROADS MILITARY COLLEGE**

#### **ADMISSION REQUIREMENTS**

Applicants for admission to RRMC as Officer Cadets under the ROTP or RETP:

- a. must be Canadian citizens;
- b. are preferred to have reached their sixteenth, but not their twenty-first birthday by 1 January of the year preceding entrance;
- c. must be single;
- d. must meet the appropriate physical standards for the Canadian Forces; and
- e. must possess the academic qualifications as set forth below.

NOTE — UTPM candidates should consult CFAOs

## ACADEMIC QUALIFICATIONS

### General

All candidates should be aware that the course requirements at a Canadian Military College are considerably more diversified than at a civilian university, and include two years of Mathematics and Science at the university level for an Arts degree, and two years of English and other Arts courses for a Science or Engineering degree.

It should be noted that all programs of study at the Canadian Military Colleges are of four years' duration beyond the normal secondary school level required for university admission, except for candidates entering le Collège militaire royal de Saint-Jean, where a five-year course is required.

### Science or Engineering

An applicant for admission to a Science or Engineering program at Royal Roads Military College must have completed a matriculant year, at a level satisfactory to the College, with credits acceptable for admission to a Faculty of Engineering at a university in the province in which he has completed his secondary education. These levels at present are:

British Columbia	Grade XII
Alberta	Grade XII
Saskatchewan	Grade XII
Manitoba	Grade XII
Ontario	Grade XIII
Quebec	CEGEP 1, or equivalent
New Brunswick	Grade XII
Nova Scotia	Grade XII
Prince Edward Island	First year university, or equivalent
Newfoundland	First year university, or equivalent

Specific course requirements at this level include standing in the following subjects:

English or French  
Mathematics  
Physics  
Chemistry

NOTE — In most provinces, one matriculant level course in Mathematics is required. In Alberta, Math 31 is required as well as Math 30. In Ontario, candidates require at least two of the following Mathematics courses: Algebra, Calculus or Functions and Relations. In Saskatchewan, both Algebra 30 and Geometry/Trigonometry 30 are preferred.

In New Brunswick, specific subjects offered for RRMC admission must be at the 121 or 122 level, with 121 level courses preferred.

Superior candidates may be admitted lacking one of English, Physics or Chemistry.

## **GENERAL INFORMATION**

### **Arts**

An applicant for admission to an Arts program at Royal Roads Military College must have completed high school graduation at a level satisfactory to the College, with credits acceptable for admission to a university in the province in which he is completing his secondary education. These levels at present are:

British Columbia	Grade XII
Alberta	Grade XII
Saskatchewan	Grade XII
Manitoba	Grade XII
Ontario	Grade XIII
Quebec	CEGEP 1, or equivalent
New Brunswick	Grade XII
Nova Scotia	Grade XII
Prince Edward Island	First year university, or equivalent
Newfoundland	First year university, or equivalent

All candidates must have obtained credits, in the year *prior* to high school graduation, in the following subjects:

English  
Mathematics

Physics and Chemistry (or a course in Science leading to final year high school courses in Physics or Chemistry)

Specific course requirements for admission to Arts at RRMC include high school graduation with credits in the following subjects:

English  
Mathematics

NOTES — 1. The Mathematics requirement is that high school graduation course that is a prerequisite for the study of Calculus.

2. In Alberta, where two matriculant level courses are offered, Math 30 is required and Math 31 preferred. In Ontario, where three courses are offered, Functions and Relations or Calculus is required as a minimum. In Saskatchewan, Algebra 30 is required and Geometry/Trigonometry 30 preferred.

3. In New Brunswick, specific subjects offered for RRMC admission must be at the 121 or 122 level, with 121 courses preferred.

Candidates for admission to the Royal Military College of Canada or le Collège militaire royal de Saint-Jean should consult the calendar of the appropriate college for full particulars of admission requirements.

### **PHYSICAL REQUIREMENTS**

The fundamental medical requirements is a sound, healthy body with normal mental and muscular co-ordination. Any condition that, as it exists, or owing to possible progression, may limit the candidate's career as a member of the Canadian Forces shall be cause for rejection.

## **GENERAL INFORMATION**

### **SELECTION OF CANDIDATES**

#### **Officer Cadets**

Eligible applicants for the ROTP or RETP will be required to appear, by appointment, at a Canadian Forces Recruiting Centre (CFRC) for a medical examination, testing, and interview, at a convenient time after the date of their application. Within Canada, applicants not resident of the city within which the CFRC is located, will normally be provided with return transportation and normal travelling expenses from their place of residence to the CFRC and with living expenses while at the CFRC.

Candidates will be advised shortly after their interview as to the status of their application.

The selection of Officer Cadets is made by the Final Board of Selection appointed by the Minister of National Defence. Candidates will be advised of the decision of the Final Board of Selection and shall subsequently be sent the necessary joining instructions.

Final selection is based on academic standing and on the recommendations of the Interview and Medical Boards as to the personal and physical suitability of the candidates.

Selection of applicants to the UTPM is made by military and academic boards convened at NDHQ each year.

#### **Special Students**

Special students will be selected by the RRMC Admissions Committee. Candidates will be selected not only on their academic potential, but also on the basis of the courses they have selected and the feasibility of these courses being offered in any given semester.

Special students may select courses with the approval of the Registrar, the Head of the Department concerned, and the Royal Roads Military College Faculty Council.

### **JOINING INSTRUCTIONS**

As soon as the decision of the Final Board of Selection is made known, the Colleges send out Joining Instructions to each of the successful applicants. They shall be informed of the date of joining, the procedure to be followed, and the clothing and equipment they should bring with them, and they shall be given instructions about transportation and travelling allowances.

## **GENERAL INFORMATION**

### **SUMMER TRAINING**

The summer term, which must be taken by all Officer Cadets who successfully complete the academic terms, is spent in practical military training with the element in which they are enrolled. During the summer term, cadets will receive pay and allowances as prescribed. The summer training period is approximately nine weeks long.

### **CANADIAN FORCES COUNSELLING**

The staffs of the three colleges include officers from the Canadian Forces who are responsible for career counselling and arranging for military training programs for all Officer Cadets of regular status. These officers are available to the cadets at all times to answer inquiries on military matters and to offer advice on military careers.

### **ACADEMIC COUNSELLING**

At Royal Roads, members of the faculty serve as academic advisors to the cadets. These professors are available to the cadets at all times to counsel them in their academic progress, to guide them in their choice of programs of study, or to advise them on any non-military matters that the cadets may wish to discuss.

### **FEES AND ALLOWANCES**

#### **Regular Officer Training Plan**

An Officer Cadet who is a member of the ROTP shall have his fees paid by the Department of National Defence and shall be entitled to receive pay, allowances, and transportation and travelling expenses as prescribed by the ROTP.

An Officer Cadet who is a member of the ROTP but who has failed a semester or year and is permitted to repeat that semester or year at his own expense shall be required to pay the amount prescribed in QR&Os. The current annual rates, which are subject to change, are:

- a. \$800.00 in respect of tuition, clothing, books, instruments, drawing materials, dry cleaning, and incidental expenses;
- b. a fee of approximately \$2,000 each year to defray the costs of meals and accommodation; and
- c. an annual Recreation Club Fee of \$60.00.

#### **Reserve Entry Training Plan**

An Officer Cadet who is enrolled at the college under the RETP shall pay the following fees on the first day of arrival at RRMC, based on the current prevailing annual rates established by the Queen's Regulations and Orders:

- a. annual college fee of \$800.00, to defray the costs of tuition, clothing, books, instruments, drawing materials, dry cleaning, laundry, and incidental expenses;
- b. a fee of approximately \$2,000 each year to defray the costs of meals and accommodation;
- c. an Annual Recreation Club Fee of \$60.00;
- d. a book deposit of \$100 (refunded at end of academic year).

## **GENERAL INFORMATION**

An optional payment system may be exercised whereby payment may be made in two stages:

- a. each year \$1,600 on or before the first day a cadet reports to the College, and the balance payable on or before 31 January of the same academic year.

NOTE — These are the current rates, and are subject to change.

### **University Training Plans — UTPM and UTPO**

An Officer Cadet who is a member of the UTPM or an officer who is a member of the UTPO shall have his fees paid by the Department of National Defence and shall be entitled to receive pay, allowances, and transportation and travelling expenses as prescribed by the applicable plan.

### **Mess Subscriptions**

All Officer Cadets are required to pay a mess subscription, extra messing charges and charges levied for special functions at a rate prescribed by the Mess Constitution.

### **Transportation**

An Officer Cadet of the Regular Forces proceeding to his home on leave, once in each year, for the portion of the journey to his home and return actually made in Canada or between Canadian points, is entitled to transportation allowances at Public expense, in accordance with QR&O.

### **Special Students**

Special students taking a course or courses at RRMC will pay no fees but may be responsible for the purchase of their own textbooks and supplies.

## **CADETSHIPS AND SCHOLARSHIPS**

### **Scholarships and Bursaries**

Applicants under the Reserve Entry Training Plan may be eligible for a number of scholarships and bursaries available to students at Canadian Universities, including the Canada Student Loans Plan and also the Foundation Scholarships of the Royal Military College Club of Canada.

### **Canada Student Loan Plan**

This plan, instituted by the Federal Government in 1964, was introduced to provide loans to supplement the resources of a student and/or the parents where in the absence of such aid; a student would be unable to pursue a post-secondary education. A student should apply for a loan under this plan for only the funds needed, over and above those from his own resources and/or those of his family, to enable him to continue his studies. The institution to which application is made will determine the amount of loan required in each case.

Borrowers under this plan are required to repay principal and to pay interest, but no payments are required so long as the student is in full-time attendance at an eligible institution and for six months thereafter. Interest charges during this period are paid by the

## **GENERAL INFORMATION**

Federal Government, which also guarantees the loan principal. After the interest-free period, repayment of principal and simple interest charges on the outstanding balance are required in regular monthly payments to the bank from the borrower. The maximum amount which may be advanced under this plan to one student is \$1,800 in one year. The maximum total indebtedness under this plan is \$5,000.

Application should be made in the first instance to the Registrar. When a loan is approved, the institution will issue a Certificate of Eligibility that authorizes the student to make arrangements for the loan with any branch of any chartered bank of Canada.

Officer Cadets receiving the full benefits of the Regular Officer Training Plan normally will not be considered eligible for Canada Student Loans.

### **Foundation Scholarships — Royal Military College Club of Canada**

The R.M.C. Club of Canada sponsors a number of Foundation Scholarships annually. These scholarships are awarded to qualified Reserve Entry Training Plan candidates at any of the three Military Colleges.

The purpose of the scholarship is to attract outstanding candidates to the College who at the time of entry are not prepared to decide upon a Service career but who, nevertheless, are anxious to profit from the disciplined life and excellent educational facilities available at the Military Colleges. In the awarding of the scholarships, the principle of scholastic excellence will be observed, in keeping with the purpose of the scholarships. Each scholarship has a value of \$800 per year until graduation providing the holder successfully completes each previous college year. It is the intention of the Club that a scholarship coupled with the service pay received during the summer, would enable a cadet to defray the major portion of the basic financial obligations associated with the Reserve Entry Training Plan.

Application forms and further information may be obtained from:

The Secretary-Treasurer  
R.M.C. Club of Canada  
Royal Military College of Canada  
Kingston, Ontario  
K7L 2W3

or from the representative of the Branch of the R.M.C. Club of Canada in your area.

### **Dominion Cadetships**

- a. A Dominion Cadetship may be granted by the Minister to a cadet who, being a member of the Reserve Force, enters the initial year at a college under the terms and conditions of this article.
- b. The value of a Dominion Cadetship shall encompass:
  - (1) the annual college fee for the first year;
  - (2) the amounts prescribed in QR&O in respect of the cost of single quarters and rations, for the first and subsequent years; and
  - (3) the annual Recreation Club fee for the first and subsequent years.
- c. Not more than fifteen Dominion Cadetships may be granted in a college year.

## GENERAL INFORMATION

- d. A candidate, to be eligible for a Dominion Cadetship, must meet the enrolment and academic standards for admission and be the child of a person who was killed, has died or is severely incapacitated as a result of service in:
  - (1) the Canadian Forces; or
  - (2) the Canadian Merchant Marine, during hostilities.
- e. Application for a Dominion Cadetship shall be made in writing, giving full particulars of the candidate's eligibility under para (d) of this article, and shall normally be forwarded by the first day of March to a Canadian Forces Recruiting Centre or Canadian Forces Recruiting Detachment.
- f. The final board of selection shall submit to the Minister for approval a list of candidates recommended for Dominion Cadetships, in order of merit.
- g. A Dominion Cadetship is forfeited on failure of an academic year.

### MEDALS, AWARDS AND PRIZES

The following annual awards may be won by Officer Cadets who meet the requirements as specified:

#### Medals

*The Governor General's Gold Medal*, awarded to the Officer Cadet who obtains the highest academic standing in his or her fourth year.

*The Lieutenant-Governor of British Columbia's Silver Medal*, awarded to the Officer Cadet who obtains the highest academic standing in his or her third year.

*The Governor General's Silver Medal*, awarded to the Officer Cadet who obtains the highest academic standing in his or her second year.

*The Governor General's Bronze Medal*, awarded to the Officer Cadet who obtains the highest academic standing in his or her first year.

#### Awards

*The Commandant's Cup*, awarded to the outstanding second, third or fourth year Officer Cadet for athletic ability and sportsmanship.

*The Director of Studies' Cup*, awarded to the outstanding first year Officer Cadet for athletic ability and sportsmanship.

*The Royal United Services Institute of Vancouver Island Award*, presented for the Officer Cadet of the first year who is judged to be the best all-round Officer Cadet.

*The RMC Club Award*, presented for the Officer Cadet of the second year who has displayed the most improvement in all phases of his military training.

*The Military Engineering Association Award*, presented for the best second year engineering classification Officer Cadet.

*The Royal Canadian Armoured Corp Award*, presented for the best second year land operations classification Officer Cadet.

## **GENERAL INFORMATION**

*The Navy League of Canada Award*, presented for the best second year sea operations classification Officer Cadet.

*The RCAF Association Award*, presented for the second year air operations Officer Cadet with the highest academic and military proficiency.

*The H.E. Sellers Award*, presented for the Officer Cadet chosen as the best all-round second year ROTP/RETP Cadet.

*The RMC Club (Vancouver Island Branch) Award*, presented for the best all-round second year UTPM/UTPW Cadet.

*The LCol F.J. Picking Award*, presented for the Officer Cadet judged to be the best all-round third year cadet.

*The D.W. Hone Award in Physics and Oceanography*, presented by Professor Emeritus D.W. Hone for the Officer Cadet who achieves the highest standing in physics and oceanography courses in the third year science program.

*The Clarence C. Cook Award in Physics*, presented in memory of Professor Emeritus C.C. Cook for the Officer Cadet who achieves the highest standing in physics courses in the fourth year science program.

*The Wallis Award in Military and Strategic Studies*, presented by Professor Emeritus and Mrs. A.D. Wallis for the Officer Cadet who submits the best Honours Thesis in Military and Strategic Studies.

*The Naval Officers Association of Canada (Vancouver Island Branch) Award*, presented for the best fourth year sea operations classification cadet.

*The Claus Gorgichuk Memorial Award*, presented by the Graduating Class of 1979, for the cadet of the graduating class judged by his peers to best exemplify the college motto: Truth, Duty, Valour.

*The Sword of Merit*, presented by the Department of National Defence for the graduating UTPM Cadet who achieves the highest military and academic standing in fourth year.

*The Sword of Honour*, presented by the Department of National Defence for the best all-round ROTP/RETP Cadet of the graduating class.

**Additional prizes may also be awarded.**

### **Departmental Prizes**

Academic book prizes are awarded annually to Officer Cadets who achieve the highest standing in the disciplines of Mathematics, Science and/or Engineering, Chemistry, Physics, Chemical and Biological Oceanography, History, Political Science and the Humanities-Social Sciences.

In addition, special book prizes may be awarded for work of unusual merit, when such prizes are recommended by an academic department and approved by Faculty Council.

## ***GENERAL INFORMATION***

### **Certificates**

First Class Honours certificates are awarded to Officer Cadets of the first, second, or third year who obtain an overall A average in their final examinations, with no failures. In addition, second class and pass certificates are awarded to second year Officer Cadets obtaining an overall B standing (with no failures), or C or D standing, respectively, in their final examinations. A degree certificate will be awarded to those meeting the requirements of the Bachelor of Science or Bachelor of Arts degree at the end of the fourth year.

A student who completes his final year with first class honours standing will have his degree script inscribed "With Distinction".

## THE CURRICULUM

### DEFINITIONS

**Program of Study** — A program of study is a group of courses in different subjects required for completion of a degree in a given area of concentration, eg. Mechanical Engineering, Honours Science (Mathematics and Physics), General English.

**Subject** — A subject is a division of the program of studies, eg. economics, mathematics, physics.

**Course** — A course is a series of lectures, tutorials, and/or laboratory periods in a given subject. The different courses at Royal Roads Military College are designated by letter and number combinations. The designation system is explained on page 75 titled Course Descriptions. Courses may extend over one semester (eg. Physics RR201), or over two semesters (eg. Mathematics RR103).

**Elective** — An elective is a course selected by the student from several designated offerings to fulfill requirements of an approved program of study.

**Units of Credit** — The relative weight assigned to a course is defined in terms of units of credit. A full university-level course would normally be assigned a weighting of four units of credit per semester.

**Semester Grade Average** — The semester grade average is obtained by multiplying the final semester numerical grade in each course by the number of units of credit assigned to that course, summing the resultant products for each course in which a semester grade was reported, and dividing the sum by the total number of units of credit recorded.

### CANADIAN MILITARY COLLEGE DEGREE PROGRAMS

Officer Cadets may begin their degree studies at any one of the three Canadian Military Colleges. Cadets wishing the BSc degree program in Physics and Oceanography, in Physics and Computer Science or in General Science may complete their final two years of studies at Royal Roads Military College. Cadets wishing the BA degree program in Military and Strategic Studies may also complete their final two years of studies at RRMC. Cadets enrolled in other degree programs must complete their final two years of studies at Royal Military College or le Collège militaire royal de Saint-Jean.

The Canadian Military Colleges hold membership in the Association of Universities and Colleges of Canada. The degree programs are fully accredited. The engineering degree programs meet the standards laid down by the Canadian Council of Professional Engineers.

### THE ROYAL ROADS MILITARY COLLEGE ACADEMIC PROGRAM

The academic year at Royal Roads Military College consists of two semesters, each of which consists of about 13 weeks of instruction and two weeks of final semester examinations.

## **NOTES ON PROGRAMS OF STUDY**

In the first year at Royal Roads Military College, two programs of study are available to Officer Cadets, one of which leads to a degree of Bachelor of Arts or Bachelor of Administration, and the other to a degree of Bachelor of Science, Bachelor of Engineering, Bachelor of Arts, or Bachelor of Administration.

In the second year at Royal Roads Military College, programs of study are available to Officer Cadets leading to all of the various undergraduate degrees offered at all of the CMCs.

Royal Roads Military College offers, in the third and fourth years, a Bachelor of Science degree in Physics and Oceanography in either a "Combined Major" or "Honours" Program of Study; a Bachelor of Science degree in Physics and Computer Science in a "Combined Major" Program of Study; a Bachelor of Science in General Science and also a Bachelor of Arts degree in Military and Strategic Studies in either an "Honours" or "General" Program of Study. Science students may enter the "General Science" Program of Study at the end of any semester in second, third or fourth year, with the permission of Faculty Council.

Royal Roads Military College offers the following degrees to those considered worthy of the honour:

- a. Doctor of Law, *honoris causa*;
- b. Doctor of Science, *honoris causa*; and
- c. Doctor of Military Science, *honoris causa*.

The above degrees are granted by the Royal Roads Military College under the authority of "The Royal Roads Military College Degrees Act", passed by the thirtieth Parliament of the British Columbia Legislative Assembly and given Royal Assent on 26 March 1976.

### **BACHELOR OF SCIENCE DEGREES — RRMC**

The purpose of the RRMC Science degree programs is to produce general service officers who are capable of working in land, sea and air environments; who have a sound knowledge of basic physics, chemistry, mathematics and an appreciation of general engineering subjects, and who will appreciate those aspects of the social sciences and humanities relevant to the military profession and ethic. The programs fit students for military service in most classifications upon graduation, and are a suitable basis for further academic and military training. Third year enrolment in any program may be limited in numbers, with preference given on the basis of overall academic and military performance.

#### **BSc IN PHYSICS AND OCEANOGRAPHY — RRMC**

The purpose of specialization in physics and oceanography is to learn how to apply physical laws and use the techniques of the exact sciences to solve problems. The interest of many operational and technical classifications are reflected in the emphasis and choice of topics studied. Attention is paid to the characteristics of the environments in which military forces operate, and the student studies the structure of the earth, the ocean bed, the air-sea interface including ice, the atmosphere and space, and especially

**OCEANOGRAPHIC RESEARCH VESSEL**

**SEA MEASUREMENT**

## **NOTES ON PROGRAMS OF STUDY**

the water column. Both chemical and biological oceanography are studied, but there is more emphasis upon physical oceanography because it is more closely related to military problems.

Two levels of the BSc degree are offered in Physics and Oceanography. There is a "combined major" degree, and exceptional students may be awarded a "combined major degree with honours" upon completion and acceptance of a thesis. These programs provide a sound scientific background and specialization in a modern field.

During the first two years much of the material studied is common to all the CMC science and engineering degrees, eg. introductory and intermediate level courses in engineering, physics and chemistry, with emphasis upon mathematics and computing science. The specific topics covered in courses may be found in the body of the calendar in the section on Course Descriptions.

In the third and fourth year programs, the mathematics courses emphasize analysis with particular attention to complex variables and differential equations, digital computing, and probability and statistics with applications to communications and theory. Physics courses include applications of mechanics, solid state electronics, electromagnetic wave propagation encountered in communications, navigation, surveillance and control systems, acoustics, atomic physics and nuclear physics.

The course on geophysical oceanography deals particularly with the sea bed, as well as with the rest of the earth's structure. The course on aeronomy examines air-sea-ice problems, dynamics of the atmosphere and ionosphere, and problems of remote sensing. The Chemistry Department offers courses in analytical chemistry and in chemical and biological oceanography in the third year, and a course in applied thermodynamics in the fourth year. The important subject area of physical oceanography is covered by courses in descriptive and dynamic oceanography which are broadened by field work. Following second year courses in engineering graphics and mechanics of materials the Engineering Department gives a course on fluid dynamics.

Laboratory experiments are augmented by visits to west coast research ships and institutions, and by projects which involve making standard oceanographic measurements from the College research launch. Seminars and research projects bring the students up to date in selected areas.

Consult page 76 for a comprehensive index of Oceanography courses.

### **BSc IN PHYSICS AND COMPUTER SCIENCE — RRMC**

The purpose of specialization in Physics and Computer Science is to learn how to apply physical laws and how to master and stay abreast of developments in computer science and technology. A useful, well established and relatively stable background is provided in the natural sciences, with the greatest specialization in physics. As well, an entry is made into the volatile and rapidly developing discipline of computer science. Knowledge of natural science will remain relevant and useful, but some computer technology will become obsolete in a few years. The purpose, therefore is to provide not only a useful knowledge of those parts of current computer technology of particular interest to the military, but also sufficient theoretical background to enable the student to keep up with developments in this growing field.

The physics part of the program is the same as the "Combined Major" in Physics and Oceanography and electives are chosen from the science and arts courses. The computer science curriculum is based upon the core curricula recommended by committees of the Association of Computing Machinery (ACM) and of the Institute of Electrical and Electronic Engineers (IEEE). The IEEE part of the curriculum places a greater emphasis upon militarily relevant hardware than does that of the ACM.

Course descriptions will be found under the Engineering, Mathematics and Physics Departments.

Consult page 76 for comprehensive index of Computer Science courses.

**BSc IN GENERAL  
SCIENCE — RRMC**

The BSc program in General Science is normally entered from one of the other science programs. It has the same purpose as the others. A minimum of 80 units of credit (excluding SLT) in 300 or 400 level courses must be obtained in third or fourth year as follows: 8 units of credit in Military Leadership and Management; a minimum of 12 or maximum of 16 units of credit in Arts electives; 56 or 60 units of credit in Science subjects as well as SLT, Drill, PE. In addition, any prerequisite 100 or 200 level course must be completed.

Course descriptions are found in the appropriate departmental sections of the Calendar. Consult page 76 for a comprehensive index of Computer Science or Oceanography courses.

**RRMC BSc DEGREES  
ADMISSIONS REQUIREMENTS**

**General Degree in Science**

Satisfactory completion of second year in any CMC science or engineering program of study which includes a course in chemistry.

**Combined Major in Physics and Oceanography**

Completion of second year in a CMC science or engineering program of study which includes a course in chemistry and Mathematics RR241 and Engineering RR232, or their equivalents. A weighted grade average in mathematics, science, or engineering subjects of at least D + is normally required.

**Combined Major in Physics and Computer Science**

Completion of second year in a CMC science or engineering program of study which includes a course in chemistry and Mathematics RR241 and Mathematics RR252 or their equivalents. A weighted average of at least D + is normally required in mathematics, science and engineering courses.

**Honours Degree in Physics and Oceanography**

Completion of third year in the combined major program in Physics and Oceanography with a weighted average in courses in mathematics, science, and engineering of at least B. Students who have achieved less than second class honours may be admitted to the Honours program on a probationary basis with Faculty Council approval.

## *NOTES ON PROGRAMS OF STUDY*

### **BA IN MILITARY AND STRATEGIC STUDIES—RRMC**

The RRMC Military and Strategic Studies program is designed to introduce Officer Cadets to military history, strategic thought, international relations, and Canadian economic and political issues. It builds upon and develops from the first and second year programs of study at the CMCs. The program is intended as a solid foundation for subsequent officer development through individual study and disciplines relating to war and the military.

In order to familiarize students with research problems and critical analysis, and to enhance their ability in public speaking, class seminars and thesis requirements are mandatory in the fourth year of the Honours program. Students in the Honours program will be required to undertake an honours thesis extending over two semesters. They will discuss their research work in a seminar during the first term, and defend their findings in an oral exam by the end of the second term.

### **RRMC BA DEGREES ADMISSION REQUIREMENTS**

#### **General and Honours Degree in Military and Strategic Studies**

Satisfactory completion of any CMC second year course of studies - art, administration, science or engineering.

### **THE ROYAL MILITARY COLLEGE ACADEMIC PROGRAM**

The Royal Military College of Canada offers degree programs in Engineering, in Science and in the Humanities.

### **CONDITIONS OF TRANSFER FROM RRMC INTO THIRD YEAR AT RMC**

#### **a. General**

General conditions for admission to third Year courses of study leading to a degree at RMC are as prescribed in the RMC Calendar and the RMC Academic Regulations. However, admission to all degree course programs is granted only with the approval of the Head of Department concerned. Heads of Departments at RMC are always available to give advice concerning preparation for, and admission to, their degree programs. General enquiries should be directed to the Registrar, Royal Military College of Canada, Kingston, Ontario, K7L 2W3.

#### **b. General Requirement for Admission to Third Year at RMC**

The general requirement for admission to a Third Year degree course at RMC is that candidates will have the same basic preparation for their courses whichever of the Canadian Military Colleges they have come from.

Entry into Honours is normally limited to students who pass at the end of the Second Year with at least 66 per cent in the subjects of the Honours Course of Study. An overall average of at least 60 per cent will also normally be required.

In order to meet an RMC requirement for a course in Canadian History, a specified course in this subject may have to be taken in Third Year at RMC.

c. **Entry Requirements for RMC Degrees in Arts (BA)**

The general requirement for admission to all Third Year Arts (BA) programs at RMC is met by successful completion of one of the Second Year courses of study available at a CMC.

However, specific requirements for honours standing in particular courses will apply for admission to Honours Arts degree courses. Also, depending on the Arts degree program entered, specified courses may have to be taken in place of electives in either Honours or General courses.

d. **Entry Requirements for RMC Degree in Science (BSc)**

**Mathematics and Physics**

The following Second Year courses of study will meet the requirements for admission to Third Year Mathematics and Physics (General and Honours) at RMC:

Science

Engineering

Entry into the Honours course of study is limited to those who obtain at least 66 per cent combined average in mathematics and physics courses in the Second Year. An overall average of at least 60 per cent will normally be required. For entry into the General course of study, the combined average must be at least 55 per cent and the overall average at least 50 per cent.

**Science (Applied)**

The following Second Year courses of study will meet the requirements for admission to Third Year Science (Applied) at RMC:

Science

Engineering.

e. **Entry Requirements for RMC Degrees in Engineering (BEng)**

To enter a Third Year engineering program a student must have the approval of the Head of Department or Professor in Charge of the program concerned. This normally requires the successful completion of the Second Year engineering program at RMC, RRMC or CMR with at least the following combined averages in Mathematics, Physics, Chemistry and Engineering courses:

**55 per cent for**

Civil Engineering

Computer Engineering

Electrical Engineering

Engineering and Management

Fuels and Materials Engineering

Mechanical Engineering

**66 per cent for**

Engineering Physics

## **NOTES ON PROGRAMS OF STUDY**

### **LE COLLÈGE MILITAIRE ROYAL DE SAINT-JEAN ACADEMIC PROGRAM**

Le Collège militaire royal de Saint-Jean offers degree programs in Administration, in Computing Science, in Physical Sciences, in Canadian Studies, and in Military and Strategic Studies.

#### **COURSES OF STUDY AT CMR AND CONDITIONS OF TRANSFER FROM RRMC INTO THIRD YEAR AT CMR**

The following courses of study are available at CMR to students on transfer from Second Year at RRMC:

##### **a. Bachelor of Administration**

The major objective of this program, leading to the degree of Bachelor of Administration, is to provide opportunities for the development of efficient administrators capable of adapting to different types of organization.

Secondary objectives are: (1) To provide the student with a broad background in Business Administration. (2) To improve the understanding of human behaviour in connection with administrative problems. (3) To provide the future officer with a knowledge of Public Administration which will enable him to be an effective manager in the Canadian Forces. (4) To provide the future manager with the knowledge which will permit utilization of quantitative methods in decision-making.

Many approaches to learning are used: case method, role-playing, films, lectures, reading, report-writing, business games, classroom discussions, tours of industry, and simulation exercises.

Entry will normally be open to those candidates from RMC and RRMC who have completed their Second Year in Arts and preferably to those who have taken Principles of Accounting. Other candidates from other options may be accepted subject to a special review of their academic records.

The following compensative courses must be taken at CMR:

ADM 231: Accounting I (if CO203 not taken in Second Year)  
ADM 232: Accounting II  
ADM 241: Managerial Mathematics  
SCH 212: Microeconomic Analysis

##### **b. Bachelor of Computing Science**

The general objective of this program is to prepare officers in the different fields of Computing Science which are of interest to the Canadian Forces. Because of the diversity of classification requirements, the program should necessarily be of a broad nature.

The following concentrations are available: Systems, Management, Physics and Mathematics.

## NOTES ON PROGRAMS OF STUDY

- 1) The objective of the Systems Concentration is to impart to the students the hardware and software knowledge required to operate efficiently in an environment strongly oriented towards computerized and automated systems.

As a general rule, Officer Cadets from the three Canadian Military Colleges, who have successfully completed the Second Year of a Science or Engineering course are admissible provided that they have taken MAT 212, MAT 251 or the equivalent, and have obtained a 60% general average. Admission to the course is always subjected to approval by the Chairmen of the departments involved and must be sanctioned by the Deans of the Divisions concerned.

- 2) The goal in the Management Concentration is to form computer specialists with a good knowledge of modern management techniques and the capability of making their science serve these techniques.
- 3) The objective of the Physics Concentration is to provide the student with a fundamental background in Computing Science (particularly in software) completed by a good knowledge of Physics in general, and specifically of the Physics related to computers.
- 4) The goal of the Mathematics Concentration is to provide the student with the fundamental background in Mathematics and Computing Science which will enable him to use the most modern techniques in tackling the numerous logistics and tactics problems which are encountered in the different classifications of the Canadian Forces. To familiarize the student with the components of a modern computerized system of defence.

As a general rule, Officer Cadets from the three Canadian Military Colleges, who have successfully completed the Second Year of a Science or Engineering course are admissible in the Management, Physics or Mathematics Concentrations provided that they have taken MAT 212, MAT 251 or the equivalent, and have obtained a 55% general average. Admission to these courses is always subjected to approval by the Chairmen of the departments involved and must be sanctioned by the Deans of the Divisions concerned.

### c. Bachelor of Science

The science options at CMR are designed to impart a full appreciation of quantitative and analytical methods. They encourage and stimulate a critical analysis of cause and effect, a demand for precision and a powerful curiosity. With the increasing influence of scientific progress in the Canadian Forces, this kind of education is relevant to any responsible role that students may assume upon graduation.

The following programs are available:

#### 1) Bachelor of Science with Honours in Physics

This most demanding program emphasizes fundamental physical principles. Graduates are prepared to undertake post-graduate studies in physics.

## **NOTES ON PROGRAMS OF STUDY**

Entry will normally be open to candidates from the three Canadian Military Colleges who have successfully completed the Second Year of a Science or Engineering course, provided that they have taken MAT 212, MAT 251 or the equivalent, and have obtained a minimum combined average of 66 per cent in mathematics and physics and an overall average of 60 per cent. Entry to the Honours course is subject to the approval of the Mathematics and Physics Department at CMR and must be sanctioned by the Dean of the Division concerned.

**2) Bachelor of Science with Major in Physics and Minor in Mathematics**

Principles and applications of physics and mathematics are stressed in this program. It is intended for students with strong scientific interests who have demonstrated at least an average achievement in previous science courses.

Entry will normally be open to those candidates who have successfully completed the Second Year in a Science or Engineering program of study at RMC, RRMC, or CMR, provided that they have taken MAT 212, MAT 251, or the equivalent, and have obtained a minimum combined average of 55 per cent in mathematics and physics.

**3) Bachelor of Science (General)**

This option is designed for students who prefer a multidisciplinary program which offers the possibility of choosing courses based on the military classification requirements or on individual preferences. The compulsory common core includes courses in physics and mathematics; optional courses are offered by the following departments: Chemistry, Engineering and Computer Science, Mathematics, Physics, and Administration Sciences.

Entry will normally be open to those candidates who have completed the Second Year in any of the Science or Engineering programs of study at RMC, RRMC, or CMR.

**d. Bachelor of Arts in Canadian Studies (Minor in Administration)**

The primary objective of the Canadian Studies program is to give students an opportunity to gain a comprehensive understanding of Canadian civilization as a living culture. A number of departments cooperate in offering this course of study.

The Canadian Studies program will provide future officers with a better understanding of other Canadians for whom and with whom they will work. It is a university course leading to a BA degree and catering to particular aptitudes and interests that are of great value to future career officers in the Canadian Forces.

Methods of study include: (1) The field method: Students, as members of the CMR community, are afforded the opportunity to observe CMR within the Montreal area as a microcosm of the Canadian reality and to become familiar with the interfacing of the three major components of our society. (2) The content analysis method involves the sys-

## **NOTES ON PROGRAMS OF STUDY**

tematic, qualitative, and quantitative study of the values, beliefs, and norms of Canadians made apparent through history, literature, institutions, the arts, etc. (3) The cross-cultural method is concerned with the study of cultures making it possible to analyze similarities and differences between English and French Canadian cultures.

Entry will normally be open to those candidates from RMC and RRMC who have completed their Second Year in Arts and preferably to those who have taken Principles of Accounting. Other candidates from other options may be accepted subject to a special review of their academic records.

### **e. Bachelor of Arts in Military and Strategic Studies**

This course has attracted wide attention in at least three areas, military, university and professional.

Following a progressive evolution from First through the Second year, the program terminates by an in-depth study during the Third and Fourth years.

The unique interdisciplinary character of the BA in Military and Strategic Studies is evident. Courses include Military History, Science of War, International Relations, Defence Policy, Social and Administration Science, Arts, Chemistry, Physics, Mathematics and Psychology.

In addition to allowing the student to move from one military college to another, this program supplies him with a solid foundation for post-graduate studies and for a professional career with unlimited possibilities.

This program is given in French only.

Entry will normally be open to those candidates from RMC and RRMC who have completed their Second Year in Arts. Other candidates from other options may be accepted subject to a special review of their academic records.

### **SELECTION OF PROGRAM STUDY**

Officer Cadets at Royal Roads Military College shall select a program of study that is compatible with their own interests and ambitions, the requirements of their element of the Canadian Forces, and the relevant academic regulations. The Canadian Forces reserves the right to limit enrolment in any given program of studies, or to select the location at which a program of studies will be taken. Each cadet will be assigned an Academic Adviser who can advise him on the academic requirements for the various programs of study. The programs of study which are acceptable to the different Military Officer Classifications are listed in Table 1.

NOTES — 1. Final grade based on year's work; no end-of-semester examinations.

2. For each fifteen lessons of Dialogue Canada or equivalent satisfactorily completed, three units of academic credit will be granted to a maximum of nine in the full degree program.

3. Taken in lieu of Second Language Training III by cadets who are functionally bilingual.

4. If Political Science RR213, or its equivalent, was not completed in second year, it must be taken in third year.

5. Offered in alternate years commencing 1982-83.

6. Offered in alternate years commencing 1983-84.

7. Electives may be selected from any 300 or 400 level Arts or Science course for which the student has the prerequisite if timetabling permits.

In the third or fourth years, a minimum of two electives must be taken from among the History and Political Science offerings and at least one must be from outside these disciplines.

8. Semester course loadings of less than 20 or more than 24 units of credit require the prior approval of Faculty Council.

NOTES — 1. Final grade based on year's work; no end-of-semester examinations.

2. For each fifteen lessons of Dialogue Canada satisfactorily completed, three units of academic credit will be granted to a minimum of nine in the full degree program.

3. Taken in lieu of Language Training III by cadets who are functionally bilingual.

4. Arts electives are Political Science RR102, French RR212, or any 300 or 400 level course offered in Economics, French, History, Literature, Philosophy, or Political Science.

5. Required if not completed in second year.

6. In third and fourth years, a minimum of 80 units of credit (excluding SLT) in 300 or 400 level courses must be obtained. Eight units of credit must be in MLM;

NOTES —

1. Final grade based on year's work; no end-of-semester examinations.
2. For each fifteen lessons of Dialogue Canada or equivalent satisfactorily completed, three units of credit will be granted to a maximum of nine in the full degree program.
3. Taken in lieu of Second Language Training III by cadets who are functionally bilingual.
4. Arts electives are Political Science RR102, French RR212, or any 300 or 400 level course offered in Economics, French, History, Literature, Philosophy, or Political Science. A minimum of three Arts electives must be taken during the third and fourth years.
5. Arts electives may be taken in either semester.
6. Three science electives worth at least 10 units of credit must be taken during the third and fourth years. Science electives may be taken in either semester.

1. Final grade based on year's work; no end-of-semester examinations.
2. For each fifteen units of Dialogue Canada or its equivalent satisfactorily completed, three units of academic credit will be granted to a maximum of nine in the full degree program.
3. Taken in lieu of Language Training IV by cadets who are functionally bilingual.
4. Not offered in 1983-84.
5. Required of those in the Honours Program. Regulations governing Honours thesis are available from the Head of the Department of History and Political Economy.
6. Offered in 1983-84 only.
7. Offered in alternate years commencing 1982-83.
8. Offered in alternate years commencing 1983-84.
9. Electives may be selected from any 300 or 400 level Arts or Science course for which the student has the prerequisite if timetabling permits. In the third and fourth years, a minimum of two electives must be taken from among the History and Political Science offerings and at least one must be from outside these disciplines.
10. Semester course loadings of less than 20 or more than 24 units of credit require the prior approval of Faculty Council.

AIR

## MILITARY TRAINING

## LAND

**COURSE DESCRIPTIONS**

The different courses offered at RRMC are described in detail in the sections that follow (listed alphabetically by departments). For each course at RRMC the name of the subject (e.g. History) is given, followed by a three digit number prefixed by the letters RR. The RR designates that the course is offered at Royal Roads Military College; the first number indicates the year in which the course is normally taken, the second number is used to distinguish between the various courses offered by the department in that year, and the third number indicates the semester in which the course is offered. Some courses at RRMC extend over a full academic year of two semesters; these courses will be indicated by a 3 as the third number (e.g. Mathematics RR203). The course number is followed by a brief descriptive title of the course; this in turn is followed by numbers in parenthesis that indicate respectively the number of lectures, tutorials, and laboratory periods each week in each semester, and the number of units of credit assigned to the course each semester. A detailed course description would read as follows:

**PHYSICS RR101: Mechanics**

**(4,1,3,5/-,-,-,-)**

This is a one semester course in mechanics offered by the Department of Physics in the first semester in the first year. The course meets four times each week for lectures, once for tutorials, three times for laboratory periods, and carries five units of credit.

**MATHEMATICS RR203: Calculus, Linear Algebra, Probability  
and Statistics, Operations Research**

**(3,2,0,4/3,2,0,4)**

This is a year course in modern algebra offered by the Department of Mathematics in the second year. The course extends over both the first and second semesters of the year, meets three times each week for lectures, twice for tutorials, has no laboratory periods, and carries eight units of credit for the year (four units each semester).

**Note 1:** In a few cases, a student may take only one semester of a two semester course. In this case his transcript will indicate a course numbering ending in a 1 or 2, instead of the usual 3 (e.g. History RR111 is the first semester of the History RR113 course).

**DEPARTMENT OF CHEMISTRY**

Associate Professor and Head of Department — M.R. Barr, BSc, MSc, PhD, MCIC

Associate Professor — K.J. Reimer, BSc, MSc, PhD, MCIC

Associate Professor — M.G. Robinson, BSc, PhD, MCIC

Assistant Professor — G.M. Barrow, BAsC, MAsC, PhD

Special Lecturer — Major S.E. Lipin, CD, rmc, BEng, MSc

**CHEMISTRY RR103: General Chemistry** **(3,0,3,4/3,0,3,4)**

Review of fundamental laws. The properties of gases; elementary kinetic theory, Atomic structure, the Periodic Law. Types of valence bond; molecular structure. Redox processes; balancing of redox equations; electrolytic and voltaic cells. The properties of solutions. Rates of chemical reactions. First and Second Laws of Thermodynamics. Chemical equilibrium; ionic equilibria; pH, hydrolysis, and buffers. A brief introduction to organic chemistry.

The laboratory course is intended to supplement the lectures. Quantitative determinations include gravimetric methods of neutralization, precipitation, and redox volumetric methods. Qualitative analysis covers the identification and determination of most common inorganic anions and cations. A final organic section deals with the synthesis and properties of the common functional groups.

**CHEMISTRY RR123: Introductory Chemistry** **(3,0,3,4/3,0,3,4)**

This course surveys the development of modern chemical science with an emphasis on the application of the scientific method. The concept of atoms and atomic structure will be considered as will the nature of chemical bonds and the relation of chemical properties to the periodic table. Topics such as redox reactions, solubility, acids and bases, equilibrium, and radio-activity will be covered; the emphasis being on the application of these principles to an understanding of the world in terms of molecular behaviour. Examples will include polymers, explosives, war gases, corrosion, chemotherapy, water purification, energy options. Laboratory experiments will illustrate and supplement the lecture material.

**CHEMISTRY RR201: Engineering Chemistry** **(4,1,0,4/-,-,-,-)**

A course intended for cadets electing an Engineering, Honours Science, or Engineering Physics program in the third year.

The course is divided into two parts:

- (a) Review of the Gas Laws — Elementary thermodynamics — discussion of the first, second and third laws — reversible and irreversible processes — spontaneity of reactions involving gases and different types of heterogeneous systems. Electrode potentials, cells, free energy, chemical potential, one and two phase systems, the phase rule; and, as time allows;
- (b) Applications of chemistry of interest specifically to engineers, drawn from such topics as gaseous, liquid, and solid fuels, lubricants, corrosion, cells, batteries, plastics, protective coatings, explosives, etc.

CHEMISTRY

**CHEMISTRY RR212: Engineering and Physical Chemistry** (-,-,-,-4,1,3,5)

This course is taken by those students who have elected the General Science program.

The lecture section of this course is essentially the same as that described under Chemistry RR201.

However, cadets taking this program are required to accompany the lectures by an appropriate laboratory practice.

Selected fundamental experiments in physical chemistry will be allocated, illustrating such aspects of the coursework as phase rule, electrode potential, heats of reaction, distillation, etc.

**CHEMISTRY RR242: Engineering Chemistry Laboratory** (-,-,-,-/0,0,3,1)

This course is identical to the laboratory part of Chemistry RR212 and is required of students in Honours Science and of those students in General Science who have successfully completed Chemistry RR201 in the first semester.

**CHEMISTRY RR301: Analytical Methods** (2,0,4,4/-,-,-,-)

The objective of this course is to introduce students to analytical procedures and data analysis.

Lectures will deal with the theory underlying classical and modern analytical methods. These include volumetric, gravimetric and complexometric procedures; spectrophotometric; electroanalytical and chromatographic methods.

Laboratory work will be divided into two parts. Redox, precipitation and EDTA titrations will be utilized to develop manipulative skill. Considerable emphasis will be placed on time-budgeting and dove-tailing of experiments. The second part of the lab will focus on instrumental methods including polarography; VIS, UV and infrared spectroscopy; chromatography. Several of the instruments will be interfaced with a microprocessor. Emphasis will be on the exploitation of this interface for optimum instrumental application and data analysis. These experiments will be applied to "real" problems such as pollutants in marine samples (water and fish), naval boiler contamination, etc.

**CHEMISTRY RR401: Applied Thermodynamics** (3,0,0,4/-,-,-)

Review of the laws of thermodynamics and applications of fundamental relationships. Heat engines; study of types and thermodynamics of operation, gas liquification and refrigeration systems; non-ideal substances and the use of steam tables; thermodynamics of flow processes for compressible and incompressible fluids. Methods of presenting thermodynamic data. Psychrometry and the application of thermodynamics to meteorology.

OCEANOGRAPHY RR322: Biological Oceanography (-, -, -, /2, 0, 1, 3)

This is an introductory course in marine biology which deals with the organisms at the base of the marine food web (primary and secondary producers). Factors which limit the growth of these organisms are discussed together with geochemical cycles. The

## **CHEMISTRY**

concept of the ocean as a limited food source will be presented. Other topics which are introduced include (1) Sound scattering and light emission by biological organisms; (2) marine fouling and slime film development; (3) red tides and paralytic shellfish poisoning; (4) marine mesocosms; (5) sub-tidal marine invertebrates.

### **OCEANOGRAPHY RR332: Chemical Oceanography** (-,-,-/3,0,2,4)

Chemical composition and properties of sea water. Geochemical cycles, carbonate silicon, etc. Dissolved and suspended organic material. Dissolved gases, pH and alkalinity. Nutrients. Trace metals and sediments. Corrosion and fouling. Commercial extraction of chemicals from the ocean.

In the laboratory program an attempt is made to duplicate the collection of samples in an actual oceanography study. Students collect samples from stations in nearby marine areas on a routine basis and analyse them using current analytical methods. The analyses cover both Oceanography RR322 and Oceanography RR332. The data are interpreted in terms of the seasonal changes in the chemistry and biology of a marine ecosystem.

Note: Details of individual courses offered at RMC and CMR should be obtained from their respective calendars.

## DEPARTMENT OF ENGINEERING

Associate Professor and Head of Department — E.R. Chappell, rmc, BSc, MA Sc, MEIC, MCSCE, MCASI, PEng

Associate Professor — J.S. Collins, BSc, BEng (EE), MEng (EE), PhD (EE), MCSEE, MEIC, MIEEE, PEng

Associate Professor — J.W. Madill, BSc (CE), MSc (CE), EdD, MEIC, MCGS, MCSE, PEng

Associate Professor — M.D. Thom, CD, rmc, pfsc, ppsc, aws, BASc

**ENGINEERING RR232: Mechanics of Materials** (-,-,-/3,0,2,4)

For second year Engineering and Honours Science students; recommended for those intending to enter the Physics and Oceanography program; optional for General Science.

Review of statics; stresses due to axial loads, strain and axial deformation; stress due to temperature change; physical properties of materials, torsion of circular shafts and thin walled tubes; analysis of plane stress, stresses in beams due to bending, combined stresses. The elastic properties are emphasized throughout.

The Mechanics of Materials laboratory gives the student an opportunity to carry out: tensile tests on a number of different metal samples; Rockwell Hardness tests; and torsion tests to failure. There will be demonstrations of strain distribution in a beam due to bending, to help illustrate the subject matter.

**ENGINEERING RR261: Engineering Graphics** (2,0,1,2/-,-,-,-)

For second year General and Honours Science students.

Use of drawing instruments and drawing materials; geometric constructions; lettering; sketching and shape description; multiview projection; reading drawings; sectional views; auxiliary views; dimensioning; oblique and isometric pictorial sketching.

**ENGINEERING RR263: Engineering Graphics and Descriptive Geometry** (2,0,1,2/3,0,1,4)

For second year Engineering students.

Includes all topics covered in Engineering RR261 and the following additional topics.

Point projection of lines, normal views of planes, cuts and fills, revolutions, developments, graphical solution of vectors, simple determinate truss analysis, graphical calculus, determination of areas, centroids and moments of inertia, empirical equations.

Perspective drawing, double auxiliary views, intersections, screw threads, fasteners, assembly drawings, and an introduction to creative design where cadet teams provide design solutions to given problems.

Practical problems are used throughout the course.

## **ENGINEERING**

### **ENGINEERING RR312: Applied Fluid Mechanics** (-,-,-,-/4,0,2,5)

For third year Physics and Oceanography students; optional for General Science students.

Newtonian and non-Newtonian fluid properties, fluid pressure, ship stability, free surfaces and manometry; fundamental equations for steady one-dimensional, non-viscous incompressible flow; dimensional analysis and principles of similarity and modelling; laminar flow, turbulent flow, boundary layer, skin friction, and drag estimation; incompressible flow in closed circuits and open channels; Mach number, cavitation and selected topics.

The laboratory course amplifies topics discussed in the lectures. Experiments include ship stability, jet impact, flow measurements, boundary layer flows, pipe system friction losses and demonstrations of flow phenomena.

### **COMPUTER SCIENCE RR201: Computer Applications** (2,0,2,3/-,-,-,-)

For second year Science or Engineering students.

This course is intended to develop the student's ability to use the computer for practical problem solving. The students will write their own programs as well as use library programs. Proper documentation, critical examination and interpretation of program results will be emphasized.

Topics covered include number and data representation, computational pitfalls, numerical integration, modelling of measured data by curve fitting, simulation of dynamic systems and solution of linear simultaneous equations.

Selected applications from engineering, physics, and chemistry will be used to illustrate the use of the computer.

### **COMPUTER SCIENCE RR332: Organization of Programming Languages** (-,-,-,-/3,0,1,4)

Language definition; data types and structures; control structures; run-time considerations. Comparison of the structure of several high-level languages both compiled and interpreted.

Prerequisite: CSRR301 or consent of the Department.

### **COMPUTER SCIENCE RR422: Topics in Computer Systems** (-,-,-,-/3,0,0,4)

In 1983-84, the topic will be Interactive Computer Graphics.

The content will include point and line drawing displays, two dimensional transformations, graphics packages, interactive graphics, and raster graphics. Instruction and exercises will be oriented toward use of the College's Tektronix 4113-4114 and Plot 10 IGL facilities.

This course is intended primarily for Physics and Computer Science students who have Pascal programming experience and who are conversant with machine organization and data structures. Completion of Computer Science RR332 satisfies these requirements.

Note: Details of individual courses offered at RMC or CMR should be obtained from their respective calendars.

**DEPARTMENT OF HISTORY AND POLITICAL ECONOMY**

Professor and Dean of Arts — W. Rodney, DFC and Bar, BA, MA, PhD, FRGS, FR Hist S

Associate Professor and Head of Department — J.A. Boutilier, BA, MA, PhD, (on leave of absence 1983-84)

Associate Professor and Acting Head of Department — P.J.S. Dunnett, BSc, MA, PhD

Assistant Professor — J.A. Bayer, BA, MA, PhD

Assistant Professor — A.G. Martel, BA, MA, PhD

Special Lecturer — Captain (N) (Ret'd) A.K. Cameron, CD

Special Lecturer — Major R.H. Clark, CD, rmc, BA, MA

Special Lecturer — E. Ingram Ellis, MA, PhD

Special Lecturer — Major K.R. Merkley, CD, BA, MA

Special Lecturer — W.T. Mann, BComm, FCGA

**HISTORY RR113: European History to 1945**

**(3,0,0,4/3,0,0,4)**

For first year Arts students or for second year Arts students who did not complete it in first year.

A survey of European civilization from the fall of Rome to the Twentieth Century with emphasis upon economic, political, and social changes; military organization and techniques; the impact of new ideas upon states; the relation of new concepts to conflicts within and between states, and their resolution.

**HISTORY RR202: Modern Europe**

**(-, -, -, /3,0,0,4)**

For second year Science and Engineering students.

A survey of the history of European civilization from the French Revolution to the Twentieth Century; the fundamental changes in economic and military techniques and their impact on political and social organization; the development of ideas; the relation of these ideas to conflicts between states or within states, and the solution of these conflicts.

**HISTORY RR213: Canada**

**(3,0,0,4/3,0,0,4)**

For second year Arts students.

The history of Canada from earliest times to the present. Directed reading, essays, and seminar discussions, supplemented by lectures covering various aspects of economic, political, military and social development.

**HISTORY RR302: Technology and War 1914 to Present**

**(-, -, -, /3,0,0,4)**

A survey of technological innovation since the Great War with emphasis on the development and adaptation of communications, computers, detection techniques, explosives, and weapons systems. Examples will be drawn from colonial conflicts, World War II, Korea, and Vietnam. Some attention will be devoted to contemporary developments and trends.

## **HISTORY AND POLITICAL ECONOMY**

### **HISTORY RR343: The Military in the Modern World (3,0,0,4/3,0,0,4)**

An examination of the military as an institution in modern life. Beginning with the army of Napoleon, and its revolutionary and eighteenth-century antecedents, we follow the changing structure and role of military organizations as they develop through the nineteenth and twentieth centuries. Included are such themes as the creation of general staffs, the military in politics, the military in the 'third world', conscription and volunteer armies, the growth of professional ideals, the role of technology and ideology, and men in battle.

### **HISTORY RR411: America as a World Power (3,0,0,4/-,-,-,-)**

A survey of American foreign relations from the Spanish-American War to the withdrawal from Vietnam. It analyzes the transformation of the United States from colonial to great power status, with attention upon the internal dynamics of that evolution as well as external causes. America's foreign policies are considered in relation to the nation's economic growth and cultural development, its involvement in wars, and the advent of the Truman Doctrine, the Marshal Plan, NATO, SEATO, and NORAD. Particular emphasis is given to the impact of industrial development and technological change, coupled with the role of ideology in the political decision-making process, including changes in strategic thinking and diplomatic method.

### **HISTORY RR421: Naval History in the Twentieth Century (3,0,0,4/-,-,-,-)**

This course examines the emergence and eclipse of Japan as a major naval power, the decline of the Royal Navy, the character of critical naval engagements in the First and Second World Wars, the growth of the American and Soviet navies, the role of the Royal Canadian Navy in war and peace, and changes in naval technology and doctrine.

### **HISTORY RR432: China and Japan in the Twentieth Century (-,-,-,-/3,0,0,4)**

This course examines: the rise of Japan as an imperial power; the 1911 Revolution in China and ensuing warlord era; the struggle between the Kuomintang and communist forces in China prior to the Pacific War; the Pacific War; the Chinese Revolution of 1949; the American occupation of Japan; the Korean War; the dramatic growth of the Japanese economy; the cultural revolution in China; the rapprochement between China and the Western powers; and the new economic, political, and military balance in East Asia.

### **HISTORY RR443: Honours Thesis (0,3,0,2/0,3,0,2)**

During the fourth year, honours students will be required to undertake a research project or "honours thesis" extending over two terms, directed by a supervisor. Students will be required to speak on their research topic during the first term, and defend their findings in an oral examination at the end of the second semester.

### **HISTORY RR452: Russia in the Twentieth Century (-,-,-,-/3,0,0,4)**

Pre-revolutionary Russia; the 1917 revolution; establishment and consolidation of Soviet power, NEP and its repercussions; Stalinization; Comintern; the evolution of Soviet foreign policy and the development of Soviet military power.

## HISTORY AND POLITICAL ECONOMY

### **HISTORY RR471: The Pacific Rim and East Asia to 1905** (3,0,0,4/-,-,-,-)

This course examines the European exploration of the Pacific Basin, the establishment of European colonial empires throughout the region, the response to indigenous cultures to European contact, the growth of great power interests in the area, and the emergence of the modern state of Japan.

### **HISTORY RR481: Strategy and Imperialism in Asia, 1774-1914** (3,0,0,4/-,-,-,-)

The interests of the Great Powers in the Middle East and Asia will be used to exemplify the shifting world-wide balance of economic and military power. Particular attention will be paid to the various forms of European imperialism; of the decline of sea-power owing to the end of the Columbian era; and to the organization of the Indian Army and its contribution to the development of the British Empire as the first World Power.

### **HISTORY RR492: The Middle East in World Politics, 1907-1956** (-,-,-,-/3,0,0,4)

The significance of the Middle East for the history of World Politics will be examined in terms of its contribution to, and representation of, the Mercantilist Theory of the decline of Great Britain as World Power. Particular attention will be paid to the middle eastern campaigns in the two World Wars; to the struggle in the Middle East against Fascism; and to the events leading up to the Suez Crisis.

### **ECONOMICS RR201: Introduction to Economics** (3,0,0,4/-,-,-,-)

For second year Science and Engineering students.

A general survey of the field of economic behaviour designed to enable prospective Service officers to understand some of the major problems of domestic and world economics. Specific attention is paid to analyses of supply and demand; the theory of the firm; markets and pricing; national income, employment and fiscal policy; international trade; money and banking.

### **ECONOMICS RR213: Principles of Economics** (3,0,0,4/3,0,0,4)

For second year Arts students.

This course amplifies the material covered in Economics RR201 and includes research projects calculated to enrich a principles course.

### **COMMERCE RR203: Accounting** (3,0,0,4/3,0,0,4)

For second year Arts students intending to pursue a degree in Administration at Collège militaire royal de Saint-Jean.

With Faculty Council permission, also available as an arts option to other cadets.

Basic elements of accounting method. Analysis of financial transactions. The recognition of revenue and expense. Financial statement preparation. Recognition of profit. Introduction to analysis of funds flow, cost control and identification of costs, budgetary planning and control systems and accounting for corporations and partnerships.

## *HISTORY AND POLITICAL ECONOMY*

### **POLITICAL SCIENCE RR102: Introduction to Political Science**

**(-,-,-,-/3,0,0,4)**

An introduction to the principle concepts, ideas and methods of modern political science as applied to the contemporary Canadian political system.

### **POLITICAL SCIENCE RR213: Introduction to International Politics**

**(3,0,0,4/3,0,0,4)**

A study of factors governing the international political system with emphasis on the development of Russo-American relations since 1945.

### **POLITICAL SCIENCE RR302: Crisis and War in International Relations**

**(-,-,-,-/3,0,0,4)**

A study of factors determining the nature, extent and control of international conflict through discussion of selected problems and issues in international politics.

### **POLITICAL SCIENCE RR321: Irregular Warfare**

**(3,0,0,4/-,-,-,-)**

An examination of the uses of revolution, guerrilla warfare, subversion and terrorism as techniques for the disruption of national security.

### **POLITICAL SCIENCE RR332: Arms Control**

**(-,-,-,-/3,0,0,4)**

An examination of the theory and practice of arms control in contemporary international politics. Topics discussed will include strategic arms limitation agreements, nuclear test ban treaties, and the control of chemical and bacteriological warfare.

### **POLITICAL SCIENCE RR343: Modern Strategic Thought: 1815 to Present**

**(3,0,0,4/3,0,0,4)**

A survey of strategic thought from Clausewitz to present day with emphasis on post 1945 developments in nuclear strategy.

### **POLITICAL SCIENCE RR441: Canadian Foreign Policy**

**(3,0,0,4/-,-,-,-)**

An examination of important issues and developments in Canada's relations with the international community from 1914 to the present day.

## **ELECTIVES**

The following courses may be taken by cadets in third and fourth year as an Arts elective, and by cadets in second year Arts, Administration, or General Science as an extra course (Faculty Council approval required for extra courses). These courses will be offered only on sufficient demand (four or more students).

### **HISTORY RR331: Historiography and Methodology**

**(3,0,0,4/-,-,-,-)**

This course is given by members of the Department of History and Political Economy and is designed to introduce students to research and writing techniques as well as the problems of historiography.

Offered on demand. Prerequisite: consent of the instructor.

## HISTORY AND POLITICAL ECONOMY

### **ECONOMICS RR312: The Canadian Economy**

**(-, -, -, /3, 0, 0, 4)**

An examination of contemporary economic issues in Canada; inflation, unemployment, immigration, the economic basis of nationalism, separatism, trade unionism, and the role of multi-national corporations.

Offered on demand. Prerequisite: consent of the instructor.

### **ECONOMICS RR321: The Economics of Defence**

**(3, 0, 0, 4 / -, -, -, -)**

An examination of the implications of Canadian defence policy upon the Canadian economy, and the constraints placed by economic considerations.

Offered on demand. Prerequisite: consent of the instructor.

### **ECONOMICS RR332: Canadian Economic History**

**(-, -, -, /3, 0, 0, 4)**

This course examines the development of the Canadian economy to the present day. The roles of labour, capital and technology are analysed in the light of modern growth theories.

Offered on demand: Prerequisite: consent of the Instructor.

### **ECONOMICS RR402: Labour Economics**

**(-, -, -, /3, 0, 0, 4)**

Using Canadian applications this course studies the labour supply and the determination of wages. Topics to be covered will include labour force participation, labour mobility, the role of unions, the changing composition of the workforce, trends in hours of work, unemployment, manpower policy and incomes policy.

Offered on demand. Prerequisite: consent of the instructor.

### **ECONOMICS RR412: Industrial Organization**

**(-, -, -, /3, 0, 0, 4)**

Industrial Organization examines the structure, conduct and performance of industry. Topics to be covered will include: industry concentration, economics of scale, patents, vertical integration and barriers to entry, the goals of the firm, the growth of the firm, multi-nationals, advertising, price formation and government influences on industrial organization.

Offered on demand. Prerequisite: consent of the instructor.

Note: Details of individual courses offered at RMC or CMR should be obtained from their respective calendars.

**DEPARTMENT OF LITERATURE AND PHILOSOPHY**

Professor and Head of Department — G.A. Morgan, BA, MA (Phil), MA (Lit), PhD, MNI, CMMC

Assistant Professor — M.S. Madoff, AB, PhD

Assistant Professor — C.N. Ramkeesoon, BA, MA, PhD

**ENGLISH RR003: Composition, Logic and Author Study, Utopian Literature** **(3,1,0,3/3,1,0,3)**

For first year Science and Engineering students considered weak in English grammar and composition.

**Part I:** Composition, Logic and Linguistics: study of major authors from Chaucer to Shakespeare (First Semester).

This part of the course includes review and practice of the principles of clear and accurate expression, through an introduction to traditional formal logic and to the history and structure of English, with frequent composition assignments drawn from these studies. Tutorials will be devoted to guided practice in composition. Study of selected works by major authors from Chaucer to Shakespeare will provide subjects for oral and written composition.

Two essays and frequent short assignments are required from each cadet.

**Part II:** Utopian Literature (Second Semester).

In this part of the course, the student analyzes various literary forms of social criticism and examines the effect of ideas of social organization on the individual citizen. Students examine Utopian thought as expressed in six or seven works, by authors ranging from Plato to Burgess. Tutorials will be devoted to continued composition practice, including frequent short assignments and preparation and revision of major essays.

Two essays and frequent short assignments are required from each cadet.

**ENGLISH RR103: Logic, Grammar and Composition, Utopian Literature** **(3,1,0,4/3,1,0,4)**

For first year Science and Engineering students.

**Part I:** Logic and Linguistics: Survey of Englishh Literature from Chaucer to Marlowe (First Semester).

This part of the course includes a review of the principles of clear and accurate expression with a study of major authors from Chaucer to Marlowe.

Two essays and six exercises are required from each cadet.

**Part II:** Utopian Literature (Second Semester).

In this part of the course, the student analyzes various literary forms of social criticism and examines the effect of ideas of social organizations on the individual citi-

## **LITERATURE AND PHILOSOPHY**

zen. Beginning with Plato, More and Bacon, the student proceeds to other examples of Utopian thought, including the satire of Swift and several modern anti-Utopias (e.g., Zamiatin, Burgess).

Three essays are required from each cadet.

**ENGLISH RR113: English Literature 1100-1950** (3,0,0,4/3,0,0,4)

Study of important literary works by major authors from the age of Chaucer to the Baroque occupies the first semester. Readings include medieval lyrics and ballads, selections from Chaucer's *Canterbury Tales*, mystery and morality plays, Malory's *Morte d'Arthur*, the drama of Marlowe and Shakespeare, the poetry of the "Metaphysicals" and of Milton.

In the second semester, important literary works by major authors from the Augustan Age to the mid-twentieth century will be studied. Readings include the satires of Pope and Swift, essays of Gibbon and Burke, poetry by Blake and the Romantics, Victorian fiction and poetry, the novels of Conrad and Joyce, and modern poetry.

Students are required to write two main essays and shorter compositions.

**ENGLISH RR123: Composition, Logic and Linguistics** (2,0,0,2/2,0,0,2)

This course provides review of the principles of clear expression through intensive, regular practice in applying them. It encourages clarity of thought and facility of expression by introducing students to the methods of logic and by opening a study of the English language over its historical development. Students will practice composition during the class periods, and no out of class assignments will be given.

**ENGLISH RR211: Major Twentieth Century Authors** (3,0,0,4/-,-,-,-)

A survey of recent English literature, its provenance and prospects. Emphasis will be placed on Yeats, Eliot, Jones among the poets, on Shaw and Pinter among the playwrights, on Waugh, Greene, and Wilder among the novelists.

Two essays will be required.

Cadets are encouraged to take original approaches and to practice self-expression with formal precision of statement. Wide background reading is stimulated and required.

Cadets working towards an Honours BA in English must obtain 66 per cent in English RR211 and English RR222 and a general average of 60 per cent.

**ENGLISH RR222: Canadian Literature** (-,-,-,-/3,0,0,4)

A study of themes and forms adopted by English authors in Canada, from Haliburton and Service to Birney, Richler and Buckler; problems of Canadian vis-a-vis British and United States literature.

Two essays will be required.

## **LITERATURE AND PHILOSOPHY**

### **ENGLISH RR301: Literature of Canada** (3,0,0,4/-,-,-,-)

A study of the themes, models, techniques, and problems of the English writer in Canada during the twentieth century. Wide background reading is stimulated and required. Québécois works may be studied in translation.

A term paper and a seminar are required from each cadet.

Offered on demand. Prerequisite: consent of the instructor.

### **ENGLISH RR312: Literature of War** (-,-,-,-/3,0,0,4)

This course is a study of views of war in Western literature from Homeric epic to modern novel. The literatures of tribal, classical, feudal, and industrial cultures will be examined and compared, with particular reference to ethical problems and concepts of heroism.

Two essays and one oral report are required from each cadet.

Offered on demand. Prerequisite: consent of the instructor.

### **LITERATURE RR412: Introduction to the Literature and Culture of French Canada** (-,-,-,-/3,0,0,4)

For second year Arts, third and fourth year students.

This course is given in French. Candidates must express themselves fluently and write their second language competently. The study of French-Canadian writers will be carried out through the reading and critical evaluation of selected passages from the earliest writers to those of the modern days.

Offered on demand. Prerequisite: consent of the instructor.

### **PHILOSOPHY RR301: Introduction to Philosophy** (-,-,-,-/3,0,0,4)

A survey of the problems of knowledge, nature, and morals, in which the philosophers studied range from Plato to Marx, from Aristotle to Lonergan. Frequent discussion is encouraged.

Offered on demand. Prerequisite: consent of the instructor.

### **PHILOSOPHY RR412: Perspectives in Philosophy** (-,-,-,-/3,0,0,4)

Contemporary ideas of knowledge and action are traced from sources leading to Comte and Nietzsche, as two extremes. Various types of current synthesis are examined in lectures and seminars. Topics include cybernetics, neuro-psychology, relativity, ontology, analogical concept, ecology of knowledge, ethics.

Offered on demand. Prerequisite: consent of the instructor.

Note: Details of individual courses offered at RMC or CMR should be obtained from their respective calendars.

**DEPARTMENT OF MATHEMATICS**

Professor and Head of Department — G. M. Lancaster, BSc, PhD

Associate Professor — F. Milinazzo, BSc, PhD

Associate Professor — R. C. Snell, BSc, MSc, PhD

Associate Professor — M. J. Wilmut, nde, BSc, MA, PhD

Associate Professor — W. W. Wolfe, BSc, MSc, PhD (On leave of absence 1983-84).

Assistant Professor — W. Babinchuk, BSc, MSc

Assistant Professor — P. Smart, BSc, BEd, MEd, MPA, PhD

Assistant Professor — S. D. Wray, BSc, BSc (Hon), MSc, PhD

Special Lecturer — Captain D. L. Christensen, rmc, BSc

**MATHEMATICS RR103: Calculus and Analytic Geometry** (3,2,0,4/3,2,0,4)

For first year Arts students.

An introduction to the Calculus of one and two variables, including geometric vectors. The emphasis is on non-science applications and includes the mathematics of finance.

**MATHEMATICS RR113: Calculus and Linear Algebra** (5,3,0,5/5,2,0,5)

For first year Science and Engineering students.

This course includes the normal topics of a first year calculus course and selected topics from elementary linear algebra. Topics from both areas will be selected in each semester.

Algebra. Sets, relations, and functions: vector algebra with applications to geometry in two and three dimensions; quadric surfaces; determinants; and complex numbers.

Calculus. An introductory course in differential and integral calculus, including differentiation of algebraic, trigonometric, and other elementary functions; related rates; slopes, maxima and minima, and inflection points; curve sketching, the differential; the definite integral and applications to areas, volumes, arc length, surfaces, centroids, moments of inertia, and other physical problems; simple separable differential equations; polar co-ordinates and parametric equations; techniques of integration. Indeterminate forms. Improper integrals. Hyperbolic functions and partial fractions are introduced as the need arises in the calculus.

**MATHEMATICS RR203: Calculus, Linear Algebra, Probability and Statistics, Operations Research** (3,2,0,4/3,2,0,4)

For second year Arts students.

Selected topics from linear algebra, probability, statistics, game theory, linear programming, network and graph theory.

## **MATHEMATICS**

### **MATHEMATICS RR223: Calculus, Vector Calculus, and Differential Equations**

**(3,1,0,3/3,1,0,3)**

For General Science students and most Engineering students.

Partial differentiation with applications to maxima and minima in several variables, indeterminate forms, multiple integration, vector analysis including Green's divergence and Stoke's Theorems, and infinite series.

Differential equations of first order, linear equations of higher order with constant coefficients, applications.

### **MATHEMATICS RR233: Calculus, Vector Calculus, and Differential Equations**

**(4,1,0,4/4,1,0,4)**

Recommended for those students who plan on choosing Honours Science, Engineering Physics, or Electrical Engineering programs of study.

This course will include all of the topics of Mathematics RR223 but with more rigorous treatment. The study of differential equations may include Laplace transforms and applications. Elements of Fourier series are included in the study of infinite series.

This course may be taken only with the approval of the Department of Mathematics.

### **MATHEMATICS RR241: Probability and Statistics**

**(2½,½,0,3/-,-,-,-)**

For second year Engineering students; optional for General Science students.

Basic concepts of probability, including discrete and continuous frequency distributions, joint distributions, expectation. Introductory statistics for data analysis, including estimation theory with confidence intervals, hypothesis tests on mean and variance, significance and power curves, goodness-of-fit tests, regression analysis, and contingency tables.

### **MATHEMATICS RR252: Linear Algebra**

**(-, -, -, /2, 1, 0, 2)**

For second year Engineering students; optional for General Science students.

Matrix transformations; systems of linear equations; abstract vector spaces; subspaces, linear transformations; isomorphisms; co-ordinatization of vectors; characteristic values and vectors; diagonalization Cayley-Hamilton theorem.

### **MATHEMATICS RR301: Differential Equations**

**(3,0,0,4/-,-,-,-)**

Laplace Transform methods for solving ordinary differential equations; series solutions; solution of partial differential equations using separation of variables; the principle of super-position and Fourier series; applications to problems such as wave motion, heat transfer, gravitational potential, control theory, and Sturm-Liouville systems.

Prerequisites: Mathematics RR223, RR252 or approval of the Department.

## **MATHEMATICS**

### **MATHEMATICS RR401: Complex Analysis** (3,0,0,4/-,-,-,-)

Continuity, differentiability of functions of a complex variable; analytic functions; Cauchy-Riemann conditions; integration; Cauchy's Theorem and formulas; Maximum modulus theorem; Liouville's theorem; series representations; Laurent series; singularities; residue theorem and applications; elementary conformal mappings.

Prerequisite: Mathematics RR301.

### **MATHEMATICS RR412: Signal Processing** (-,-,-/3,0,0,4)

Frequency domain signal analysis; linear systems; filtering; signal detection. Discrete systems including digital filter design and the Fast Fourier Transform.

Prerequisites: Mathematics RR301, RR401.

### **COMPUTER SCIENCE RR102: An Introduction to Computer Programming** (-,-,-,-/1,0,1,2)

For first year Arts or Administration students.

Cadets will be introduced to the BASIC language and possibly some FORTRAN. Proficiency in programming will be achieved by writing programs to solve problems. Fundamental techniques of file manipulation and information retrieval useful to managers will be covered.

### **COMPUTER SCIENCE RR122: An Introduction to Computer Programming and Numerical Analysis** (-,-,-,-/2,0,2,4)

For first year Science or Engineering students.

An introduction to programming and problem solving on a computer. FORTRAN and elements of structured programming, de-bugging, and basic concepts of system hardware, numerical methods such as root finding and quadrature.

### **COMPUTER SCIENCE RR301: Introduction to Computer Systems** (4,0,2,5/-,-,-,-)

Systems components and machine language including instruction types, addressing modes, opcode design and microprogramming. Assembly language programming techniques including arithmetic and logical operations, data representation, list processing, loop control and I/O buffering. Virtual memory and page table management. Comparison of several machine architectures.

Prerequisite: Computer Science RR201 or approval of the Department.

### **COMPUTER SCIENCE RR312: Numerical Analysis** (-,-,-,-/3,0,0,4)

Numerical solutions of problems encountered in applied mathematics using the computer, numerical integration, solutions of ordinary differential equations; roots of equations; polynomial interpolation; linear systems.

Prerequisites: Mathematics RR223, RR252, RR301. Computer Science RR201.

## **MATHEMATICS**

### **COMPUTER SCIENCE RR401: Interfacing Computers and Peripherals**

**(2,0,4,4/-,-,-,-)**

The application of hardware and software concepts from previous courses to problems involved with adding peripherals such as floppy disks, DMA controller, GPIB, video monitors and digital motors to computer systems will be discussed. Small individual projects will be undertaken.

Prerequisite: Computer Science RR322.

### **COMPUTER SCIENCE RR412: Operating Systems**

**(-, -, -, /3,0,1,4)**

Computer architecture; dynamic procedure activation; systems structure and evaluation; memory and process management; recovery procedures; microprocessing.

Prerequisite: Computer Science RR301 or approval of the Department.

Note: Details of individual courses offered at RMC or CMR should be obtained from their respective calendars.

**DEPARTMENT OF MILITARY LEADERSHIP  
AND MANAGEMENT**

Special Lecturer and Head of Department — Major G.D. Resch, CD, BA, MA

Special Lecturer — Captain M. Plul, CD, BA, BEd, MSW

**MILITARY LEADERSHIP AND MANAGEMENT RR111:**

**Psychology of the Individual**

**(3,0,0,4/-,-,-,-)**

An introduction of those areas of human development and behaviour that are relevant to a future leaders' needs and interests. The course commences with an exposure to the fundamental topics and elementary psychological vocabulary necessary for the understanding of the rationale of individual differences. These topics are then related to certain developmental and social psychological concepts with a view to understanding human behaviour in situations where there is a requirement to influence the behaviour of others. To this end, elementary topics of perception, learning, motivation, intelligence, personality, adjustment, and maturation will be related to concepts of social structure, individual socialization, attitude formation, and interpersonal processes.

**MILITARY LEADERSHIP AND MANAGEMENT RR212:**

**Social Psychology**

**(-, -, -, /3,0,0,4)**

The basic objective is to introduce and acquaint the student with the broad field of social psychology. The course is designed to provide a fundamental understanding of human social behaviour. Emphasis is placed on the types and degrees of social influences on individuals by groups. An awareness of the dynamic components of social behaviour will contribute to the development of effective leadership and management principles and help the student to prepare for a career as a military officer. Topics will be selected from social perception, norms, attitudes and persuasion, conformity, obedience, groups and group behaviour, aggression, violence and conflict, and social power. In addition, professional officer development and leadership theories and approaches will be presented.

**MILITARY LEADERSHIP AND MANAGEMENT RR311:**

**Principles of Administration and Supervisory Management**

**(3,0,0,4/-,-,-,-)**

The course objective is to develop in the student an awareness of administration and supervisory management. Topics to be covered include functions of management, communications, economics, human relations, teamwork, employee performance, allocation and schedule of work, induction of new employees, giving orders, controlling employee behaviour, use of the interview, problem solving, developing a training program, holding group discussions, simplifying and improving work, and managing paper. Emphasis will be on administration and supervisory management as it is practiced in the Canadian Forces.

## ***MILITARY LEADERSHIP AND MANAGEMENT***

### **MILITARY LEADERSHIP AND MANAGEMENT**

#### **RR402: Seminars in Personnel Management**

**(-, -, -, /3, 0, 0, 4)**

Commencing with seminars on the theories of McGregor (theory X-theory Y), Maslow (need hierarchy), Herzberg (the motivation-hygiene theory), Drucker (management by objectives) and Allport (nature of man), subsequent seminars will relate these to the CF personnel system in an examination of such topics as performance evaluation, job satisfaction, counselling, punishment, communication, and leadership.

Note: Details of individual courses offered at RMC or CMR should be obtained from their respective calendars.

**DEPARTMENT OF PHYSICS**

Professor and Dean of Science and Engineering — H.J. Duffus, ndc, BA, BASc, DPhil, PEng

Associate Professor and Head of Department — D.P. Krauel, BSc, MSc, PhD

Associate Professor — W.T. MacFarlane, BA, MSc, PhD

Associate Professor — M.J. Press, BSc, MSc, PhD

Associate Professor — P.J. Schurer, BSc, MSc, PhD

Assistant Professor — J.M. Gilliland, BSc, MA, PhD

Assistant Professor — H. Jorch, BSc, MSc, PhD

Assistant Professor — R.F. Marsden, rmc, BSc, PhD

Laboratory exercises are designed to supplement and illustrate the work discussed in the lecture courses, and to provide training in methods of measurement and experiment design. Satisfactory laboratory work must be achieved in order to obtain pass standing.

**PHYSICS RR101: Mechanics**

**(4,1,3,5/-,-,-,-)**

For first year cadets taking the Science and Engineering program of studies.

Newtonian mechanics of particles and rigid bodies are studied, using vector methods and simple applications of integral and differential calculus. The course is taught with the help of members of the Engineering Department, who emphasize engineering statics.

**PHYSICS RR112: Electricity and Magnetism**

**(-, -, -, /4,1,3,5)**

For first year cadets taking the Science and Engineering program of studies.

Electrostatics, direct current electricity, magnetism and elementary current induction are studied using vector methods and elementary calculus.

**PHYSICS RR201: Electricity**

**(4,1,3,5/-,-,-,-)**

For second year cadets taking the Science or Engineering programs of study.

AC circuits, including series and parallel resonant circuits, are analyzed using Kirchhoff's laws and phasors methods. The transient response of simple circuits is analyzed. Electric and magnetic fields in free space and matter are studied. An introduction is made to Maxwell's equations.

Prerequisites: Physics RR101, RR112, Mathematics RR113.

**PHYSICS R212: Modern Physics**

**(-, -, -, /4,1,3,5)**

For second year students taking the Science or Engineering programs of study.

About half of the course is devoted to a general study of oscillations and waves. The remainder is devoted to modern physics as developed by Einstein, De Broglie, Heisenberg, Bohr, and Schrodinger.

## *PHYSICS*

The laboratory deals with experiments demonstrating the ideas and techniques of modern physics. Use is made of computers in the laboratory to facilitate the measurement and analysis of data.

Prerequisites: Physics RR101, RR112, and Mathematics RR113.

### **PHYSICS RR221: Elementary Mechanics** (3,0,3,4/-,-,-,-)

For second year students taking the Arts or Administration programs of study.

This course provides an introduction to Newtonian mechanics for students without a strong mathematical background. Concepts studied include: mass, length, time, force, torque, velocity, acceleration, Newton's Laws of Motion, the gravitational field, work, energy, power, simple machines, impulse, momentum, and rotational motion. Considerable emphasis is placed on the conservation of energy and momentum. Some contrasts are drawn between Newtonian and relativistic views of space and time.

### **PHYSICS RR232: Elementary Electricity and Magnetism** (-,-,-,-/3,0,3,4)

For second year students taking the Arts or Administration programs of study.

This course provides an introduction to the fundamentals of electricity and magnetism for students without a strong mathematical background. Concepts studied include: the structure of matter, electric fields, electric potential, potential differences, capacitance, resistance, current flow, simple DC and AC circuits, magnetic fields, electromagnetic properties of materials. Aspects of electromagnetic waves, optics, and acoustics of particular concern to the Canadian Forces may be studied as time permits.

### **PHYSICS RR332: Electromagnetic Wave Propagation** (-,-,-,-/3,0,3,4)

This course deals with the creation, propagation, reflection and absorption of electromagnetic waves in homogeneous isotropic or layered media, and by transmission lines, wave guides, antennas, and cavities.

Prerequisites: Physics RR201, RR212, Mathematics RR301.

### **PHYSICS RR352: Intermediate Mechanics** (-,-,-,-/3,0,0,4)

Methods of handling systems and rigid body dynamics in three dimensions are studied, including the use of LaGrange's equations, the Hamiltonian, and accelerated coordinate frame equations. The principles of Gauss, D'Alembert and Fermat are studied. Application of computers and numerical techniques are emphasized, as well as the traditional methods of mathematical vector analysis.

### **PHYSICS RR361: Acoustics** (2,0,0,3/-,-,-,-)

This course deals with the creation, propagation, reflection and absorption of acoustic waves in homogeneous or horizontally layered media, sound ducts and real oceans. Applications to communication, exploration geophysics, and particularly to underwater detection and surveillance are discussed.

Prerequisites: Physics RR212, Mathematics RR301.\*

(\* May be taken concurrently.)

**PHYSICS RR371: Electronics and Microcomputers** (3,0,3,4/-,-,-,-)

The course can be broken into three main sections. I. Analog electronics; theory of operation of diodes and transistors and typical solid state circuits, operational amplifiers and analog control theory. II. Digital electronics; gates, counters, registers, ROM, RAM, multiplexers, analog-digital and digital-analog conversion. III. Introduction to microcomputers; architecture, timing, input-output, interfacing, simple programming and digital control.

The laboratory work deals with experiments on analog (25%) and digital (25%) electronics and with experiments involving simple programming, input-output and timing on single-board microcomputers (50%).

Prerequisite: Physics RR201.

**PHYSICS RR421: Quantum Mechanics** (3,0,0,4/-,-,-,-)

This course deals with the quantum theory of the electronic structure of the atom. Applications to optical and solid state devices are discussed, e.g. lasers, magnetometers, fibre optics, integrated circuits, spectroscopy, and remote sensing.

Prerequisites: Physics RR332, RR352.

**PHYSICS RR432: Applied Nuclear Physics** (-,-,-,-/3,0,0,4)

This course gives a broad overview of nuclear physics and its applications. Topics discussed include: the structure of matter, elementary forces, elementary particles, nuclear composition and binding energy, nuclear structure, radioactivity, Rutherford scattering, nuclear hazards, radiation monitoring, nuclear reactors, and radiation shielding.

Prerequisites: Physics RR352, Mathematics RR301.

**PHYSICS RR441: Solid State Physics** (3,0,3,4/-,-,-,-)

A discussion of basic properties of the solid state of matter and applications to electronics and computers. Symmetry in crystals, X-ray analysis, crystal defects, lattice dynamics (phonons), free electron theory, energy bonds, p-n junction, magnetic and dielectric properties, super conductivity.

Prerequisites: Physics RR201, RR212.

**OCEANOGRAPHY RR301: Descriptive Oceanography** (3,0,0,4/-,-,-,-)

This course gives a general introduction to the oceans. The principal topics covered are: a survey of the physical properties of sea water; the distribution of salinity, temperature, etc., and their seasonal variations; the circulation of the oceans; energy budgets; oceanographic instrumentation and measurement techniques; and underwater sound velocity distributions as a result of temperature and salinity variations.

**OCEANOGRAPHY RR341: Practical Oceanography** (0,0,3,1/-,-,-,-)

Field experience is obtained in a local coastal environment. Measurement of current, temperature, salinity, etc., are taken. Data reduction, interpretation, and a final report are required.

## PHYSICS

### **OCEANOGRAPHY RR401: Geophysics and Geology** (3,0,0,4/-,-,-)

This course gives a general introduction to the physics of the earth within the framework of global plate tectonics. Following a discussion of the plate tectonic hypothesis and the differences between ocean floors and continental surfaces, the main topics are: gravimetry and the interpretation of gravity anomalies; the Earth's rotation, tides, and the shape of the earth; geomagnetism and paleomagnetism; geothermal studies; marine geophysics and geophysical prospecting.

Prerequisites: Physics RR371, RR332, Mathematics RR301\*.

(\* May be taken concurrently.)

### **OCEANOGRAPHY RR412: Aeronomy** (-,-,-,-/3,0,0,4)

This course deals principally with the atmosphere and its interactions with the oceans. Major topics covered are: the composition and properties of the atmosphere; comparison of dynamics of the atmosphere to the dynamics of the ocean; thermodynamics of the atmosphere; water vapour and cloud formation; solar and terrestrial radiation; transfer processes, including air-sea-ice interaction; satellites, remote sensing and interpretation of satellite imagery; magnetic fields and ionospheric physics; instruments, observations and their presentation; synoptic patterns; and military applications.

### **OCEANOGRAPHY RR431: Practical Oceanography** (0,0,3,1/-,-,-,-)

This course usually takes the form of a field project. Project topics are chosen in consultation with the instructor. Examples of acceptable topics: the measurement of sea-water properties; bottom sampling; seismic experiments; coastal gravimetry; geomagnetic studies, etc. Data reduction, interpretation and a final report are required.

Prerequisite: Oceanography RR301 or consent of the Department.

### **OCEANOGRAPHY RR432: Practical Oceanography** (-,-,-,-/0,0,3,1)

Field experience is obtained in a local coastal environment. Measurement of current, temperature, salinity, etc. are taken. Data reduction, interpretation, and a final report are required.

Prerequisite: Oceanography RR301 or consent of the Department.

### **OCEANOGRAPHY RR451: Introduction to Dynamic Oceanography** (3,0,0,4/-,-,-,-)

The equations of motion and continuity are developed and applied to hydrostatics, geostrophic and wind-driven currents, thermohaline circulation, waves, tides, and estuarine circulation.

Prerequisite: Oceanography RR301 or consent of the Department.

### **OCEANOGRAPHY RR462: Advanced Dynamic Oceanography** (-,-,-,-/3,0,0,4)

For students in the combined major or honours program. Selected topics in turbulence, turbulent diffusion, waves, design of experiments, and analysis of data.

Prerequisite: Oceanography RR451.

**OCEANOGRAPHY RR483: Oceanography Project** (0,1,3,2/0,1,3,2)

Fourth year cadets in the Honours program, working singly or in syndicates, work on an experimental or theoretical project in the general area of oceanography with members of the staff of the Department of Chemistry, Engineering, Mathematics or Physics. A written report is required.

The topic must be approved by Faculty Council.

**OCEANOGRAPHY RR492: Oceanography Seminar** (-,-,-,-/0,0,2,0)

A series of lectures on various topics in oceanography, presented by guest speakers, members of the college staff, and by Officer Cadets in the Honours program.

**COMPUTER SCIENCE RR322: Microcomputer Systems** (-,-,-,-/2,0,4,4)

A discussion of the hardware requirements needed to make a microcomputer function. Includes CPU, RAM, ROM, system bus, I/O (programmed, interrupt, DMA and serial) with handshaking, A/D and D/A converters, timing diagrams and microprogramming. The laboratory gives hands-on experience with these concepts as well as practical experience building several I/O interfaces.

Prerequisites: Physics RR371, Computer Science RR301 or consent of the Department.

**COMPUTER SCIENCE RR401: Interfacing Computers and Peripherals** (2,0,4,4/-,-,-,-)

The application of hardware and software concepts from previous courses to problems involved with adding peripherals such as floppy disks, DMA controller, GPIB, video monitors and digital motors to computer systems will be discussed. Small individual projects will be undertaken.

Prerequisite: Computer Science RR322.

Note: Details of individual courses offered at RMC or CMR should be obtained from their respective calendars.

## DÉPARTEMENT DE LA LANGUE SECONDE

Professeur agrégé. Chef de département et directeur de langue seconde — C. Tchalé-kian, BSc, MA, PhD.

Chargés de cours — A. Allard, BA, MA  
 — A. Hadley, BA, DipEd  
 — C. Plows, BA  
 — J. Robichaud, BA, Licence (théologie)  
 — A. Tétreault, BA  
 — J. van Campen, BA, MA

Pour enseigner la langue seconde, les méthodes de base employées sont Dialogue Canada et les Ateliers.

Les cours de langue sont offerts en chacune des quatre années. Chaque élève suit cinq périodes de langue par semaine au cours des deux sessions.

Première année	Cours de langue I
Deuxième année	Cours de langue II
Troisième année	Cours de langue III
Quatrième année	Cours de langue IV

Royal Roads Military College utilise les méthodes suivantes pour noter et accréditer les cours de langue seconde:

- (a) Notes: L'attitude, l'effort et le progrès relatif seront notés en employant l'échelle militaire habituelle de A, B, C + , C, C – , D, F. Ces notes seront soumises à l'Es-cadre Militaire et feront partie du dossier de l'élève au Collège.
- (b) Crédit: Pour chaque série de quinze leçons de Dialogue Canada complétée de façon satisfaisante, il sera accordé un crédit académique de trois unités. Cette mesure objective de propres académique sera insrite sur le bulletin académique de l'élève. La note sera reportée comme "crédit" (CR), soutenu, si disponibles, par les scores de l'élève aux tests de compétence des FC dans les catégories, compréhension auditive, expression orale, compréhension de l'écrit, et expression écrite.

Les élèves-officiers qui ont atteint le niveau fonctionnel bilingue ne suivent que trois périodes de langue par semaine. Les élèves-officiers francophones sont dispensés de suivre les cours de langue.

Courses in language training have the aim of bringing the cadet to the level of “functional bilingualism,” as measured by CF Language Proficiency (LP) tests. That is, test scores of at least 3 in listening comprehension and 1 in speaking, with a total test score of at least 10 overall for four skills, including reading and writing. The scale of scores runs from 0 to 5 with the latter corresponding to native-like fluency. Individuals who are “functionally bilingual” should be quite able to conduct military business of a general nature in the second language. Nevertheless, each “functionally bilingual” student will be given the opportunity to progress to the “integral” level.

## *S.L.T.*

The method used in language training courses is an audio-visual approach using *Dialogue Canada* and *les Ateliers*. All cadets are tested in second-language competence on entry and will be placed in appropriate sections of 6 to 10 students. Cadets will advance at their own pace and will be moved to more or less advanced sections as required.

Language training courses are designated by year only, with all cadets in first year being enrolled in Language Training I, second year cadets in Language Training II, etc. For cadets who have reached the “functionally bilingual” level, advanced courses meeting fewer periods per week are available (Language Training IA, IIA, etc.).

Language Training I	Conversational French	(0,3,2,0 / 0,3,2,0)
Language Training IA	Conversational French	(0,1,2,0 / 0,1,2,0)
Language Training II	Conversational French	(0,3,2,0 / 0,3,2,0)
Language Training IIA	Conversational French	(0,1,2,0 / 0,1,2,0)
Language Training III	Conversational French	(0,3,2,0 / 0,3,2,0)
Language Training IIIA	Conversational French	(0,1,2,0 / 0,1,2,0)
Language Training IV	Conversational French	(0,3,2,0 / 0,3,2,0)
Language Training IVA	Conversational French	(0,1,2,0 / 0,1,2,0)

Royal Roads Military College uses the following grading and accreditation procedures for second language training courses:

- (a) **Grades:** Attitude, effort and relative progress in SLT courses will be graded using the usual military scale of A, B, C +, C, C -, D, F. These grades will be submitted to the Military Wing and will become part of the training record of the cadet at the College.
- (b) **Credit:** For each fifteen lessons of *Dialogue Canada* satisfactorily completed, three units of academic credit will be granted. This objective measure of academic achievement will appear on the cadet's academic transcript. The grade will be reported as “credit” (CR) bolstered, if available, by the cadet's scores on the CFLP tests of listening, speaking, reading, and writing.

Par surcroît le département de la langue seconde offre des cours à crédit ceux d'en bas:

In addition, the Department of Second Language Training offers advanced courses carrying credit as described below:

### **FRANÇAIS RR212: Cours de grammaire et de composition**

**(-, -, -, /3,0,0,4)**

Destiné aux élèves-officiers de deuxième année en lettres qui désirent, en troisième année s'orienter vers les lettres, avec spécialisation.

Le cours comprend une révision de grammaire et le lecture, de plusieurs contes québécois. Des thèmes sont soumis au cours de l'année.

Offert sur demande. Pré-requis: Niveau fonctionnel ou accepté par le professeur.

### **FRENCH RR212: Grammar and Composition**

**(-, -, -, /3,0,0,4)**

This course is designed for second year Arts students who intend to proceed with an Honours degree and who have attained a reasonable fluency in their second language.

The course content includes a review of grammar, some readings of French-Canadian short stories and some “thèmes” to translate into French. The course is conducted entirely in the second language.

Offered on demand. Prerequisite: Functional level or consent of the instructor.

**FRANÇAIS RR311: Cours de grammaire** (3,0,0,4/-,-,-,-)

Destiné aux élèves-officiers de deuxième année en lettres, de troisième et de quatrième année.

Le cours comprend une révision approfondie de la grammaire, la lecture des auteurs Canadien-Français, des compositions et des thèmes. Bref, le candidat acroitra sa compétence en la seconde langue, en pratiquant la compréhension et l'expression orales.

Offert sur demande. Pré-requis: accepté par le professeur.

**FRENCH 311: Advanced Grammar and Composition** (3,0,0,4/-,-,-,-)

For second year Arts, third and fourth year students. This course is offered to students who have attained, or who are close to attaining “functional” levels of bilingualism.

The course consists of an in-depth review of grammar, readings of short stories by French-Canadian writers, compositions and “thèmes”.

Offered on demand. Prerequisite: consent of the Instructor.

Note: Details of individual courses offered at RMC or CMR should be obtained from their respective calendars.

**DRILL**

Officer in Charge of Drill — Captain S.D. Slater, rmc, BEng.

Drill Sergeant Major — MWO L.P. Baumgarten, CD

Instructor — WO G.A. Mason, CD

Instructor — Sgt. S.M. Gobuty

The objectives of the Drill program are to teach the officer cadets the fundamentals of drill as required in the Canadian Forces, to develop discipline and esprit de corps, to stimulate the power of command through mutual instruction, and to promote leadership through responsibility in handling groups of officer cadets.

Reference: A-PD-201-000/PT-000 — Canadian Forces Manual of Drill and Ceremonial.

**DRILL RR103** **(0,0,1,0/0,0,1,0)**

Includes rifle, foot, and ceremonial drill.

**DRILL RR203** **(0,0,1,0/0,0,1,0)**

In addition to rifle, foot, and ceremonial drill, this course includes sword drill and mutual instruction.

**DRILL RR303** **(0,0,1,0/0,0,1,0)**

Includes rifle, foot, and colours drill, as well as ceremonial and mutual instruction.

**DRILL RR403** **(0,0,1,0/0,0,1,0)**

Reviews of all phases of drill previously taught.

Note: Details of individual courses offered at RMC or CMR should be obtained from their respective calendars.

## **PHYSICAL EDUCATION AND ATHLETICS**

### **PHYSICAL EDUCATION AND ATHLETICS**

Captain H.R. Schild, CD

Captain H.G.W. Pronk, CD

MWO R. Bootland, CD

WO W.E. Sears, CD

Sgt. K.V. Roberts, CD

MCpl J.J. McQueen, CD

The aim of the Physical Education and Athletic Program is to create and maintain physical fitness, to develop leadership qualities, and to instill habits necessary for maintaining the standards of physical fitness required by officers throughout their service careers. The program is broken down into instructional as well as recreational phases. A progressive four year program designed for the Canadian Military Colleges is followed.

#### **PHYSICAL EDUCATION RR103**

**(0,0,2,0/0,0,2,0)**

The instructional phase of this course covers personal conditioning activities, combatives (wrestling) and aquatics. Physiological fitness tests are conducted to further assess individual capabilities and improvement.

In the recreational phase of this course, practical participation in major team games is introduced, with participation compulsory in at least three of the college intramural sports. In conjunction with participation as players, cadets are also involved actively in officiating various sports.

#### **PHYSICAL EDUCATION RR203**

**(0,0,2,0/0,0,2,0)**

The instructional phase of this course branches into a core elective program. Electives offered include soccer, hockey, basketball, volleyball, aquatics, orienteering, softball, rugby, touch football, and how to conduct a warm-up. The high level of instructor ability allows the cadet to develop his potential in each activity. An example is the aquatic program and, although all cadets must attain the Military Swim Standard, instruction to RLSS Bronze Cross level is available.

The recreational phase is a continuation of PE RR103 by maintenance of compulsory participation in three intramural sports (two of which must be different from first year). Cadets are again active in officiating. As well, participation in the organization and conduct of various special events is introduced.

#### **PHYSICAL EDUCATION RR303**

**(0,0,2,0/0,0,2,0)**

The instructional phase continues the comprehensive elective program, offering instruction in basketball, badminton, squash, tennis, and aquatics. Cadets choose sports in which they may pursue further personal development of skills.

The recreational phase continues the compulsory participation in three intramural sports (one of which must be new to the cadet). Cadets also become involved in the leadership and management of the various recreation clubs at the college, ranging in scope from a camera club to a scuba club. Approximately fifteen such clubs operate at Royal Roads.

## ***PHYSICAL EDUCATION AND ATHLETICS***

### **PHYSICAL EDUCATION RR403**

**(0,0,2,0/0,0,2,0)**

The instructional phase electives offered are badminton, squash, curling, tennis, golf, volleyball, and aquatics. As well, specific instruction is given related to post graduation career responsibilities and duties as a unit Sports Officer.

The recreational phase is a continuation of that programmed in PE RR303.

## ACADEMIC REGULATIONS

### DEFINITIONS

**Student:** A member of the Canadian Forces attending Royal Roads Military College to study full time for a degree. Such students may be of the following types:

- a. **Officer Cadet:** a student attending RRMC under the Regular Officer Training Plan (ROTP), the Reserve Entry Training Plan (RETP), or the University Training Plan — Men (UTPM).
- b. **Officer:** a student attending RRMC under the University Training Plan — Officers (UTPO).
- c. **Special Student:** other members of the Canadian Forces taking one or more courses at RRMC on a part-time basis. The academic regulations which follow do not apply to special students except where specifically noted.

**Program of Study:** A group of courses comprising a year's program of studies, e.g., Mechanical Engineering, Physics and Oceanography, etc.

**Subject:** A division of the program of studies, e.g., physics, history, etc.

**Course:** A series of lectures and/or laboratory sessions in a given subject, designated by a number and for which an annual or semester assessment must be provided, e.g., Chemistry RR103, Oceanography RR401, etc.

**Extra Course:** A course which is not a required part of a program of study but which, under certain circumstances, may be taken in addition to the regular requirements of the program of study.

**Elective:** A course selected by the student from several designated offerings to fulfill requirements of an approved program of study.

**Failed-Credit Standing:** Standing granted on the recommendation of the Faculty Board, and with the approval of the Faculty Council and the Commandant, in a failed course for the purpose of allowing a student who has failed one course to pass the year. The actual final grade earned will be recorded on the transcript with the annotation "failed-credit" (FC), and will remain a failure for the purpose of determining whether or not work prerequisite to other courses has been completed.

**Carry a Course:** When so recommended by the Faculty Board and approved by the Faculty Council and the Commandant, a student carries a course — after failing this course in the previous semester or year — by taking the failed course (or an authorized equivalent) again in the first subsequent academic term or year in which the course is scheduled, together with the normal academic workload of that term or year. The grade accorded on the first attempt will be recorded on the student's transcript with the notation "Failed — but permitted to carry". The semester or year will not be cleared until the carried course has been passed. A student may not carry a course from one CMC to another.

**Credit:** A course at RRMC would be assigned four units of credit for a semester's work (thirteen weeks of instruction) if it corresponded to approximately one-fifth of a normal

## **ACADEMIC REGULATIONS**

Canadian university academic work load in a faculty of arts and science. Most courses at RRMC carry four units of credit in a semester, some may be heavier and carry as much as five units of credit in a semester, and others may be lighter (one, two or three units of credit in a semester).

**Supplemental Examination:** An examination set upon the recommendation of the Faculty Board, and with the approval of Faculty Council and the Commandant, in a course in which a student has failed. A pass in a supplemental examination may be accepted by Faculty Board to remove the deficiency of the failure. If the failed course is required to complete the work of a year, the year is failed until the supplemental examination is passed.

### **DURATION OF THE PROGRAM OF STUDIES**

1. For students starting their studies at the Royal Military College of Canada, or at the Royal Roads Military College, the duration of the program of studies is four years of two terms or semesters each; for students starting their studies at le Collège militaire royal de Saint-Jean, it is four or five years of two terms or semesters each, depending upon whether the student enters at the first year or at the preparatory year level.
2. The years in the program of studies for students are designated as follows: preparatory year (at le Collège militaire royal de Saint-Jean only); the first, second, third, and fourth years (all three colleges).
3. Students successfully completing the second year at Royal Roads Military College and not entering a Bachelor of Science, or Bachelor of Arts program at RRMC will complete their final two years at either RMC or CMR.

### **DEGREES**

#### **Royal Military College of Canada**

4. A degree of Bachelor of Arts, Science or Engineering, as appropriate, shall be granted by the Royal Military College of Canada to a student who has successfully completed his final year at that institution.

#### **Collège militaire royal de Saint-Jean**

5. On the recommendation of the authorities at le Collège militaire royal de Saint-Jean, a degree of Bachelor of Arts, Science, or Administration, as appropriate, shall be granted by l'Université de Sherbrooke to a student who has successfully completed his final year at le Collège militaire royal de Saint-Jean. CMR will also, in its own name, grant a graduation certificate of academic and military qualifications to a student of that college who has earned his bachelor's degree and his commission as an officer in the Canadian Forces.

#### **Royal Roads Military College**

6. A degree of Bachelor of Science or Arts, as appropriate, shall be granted by Royal Roads Military College to a student who has successfully completed his final year at that institution.

7. A student who completes his final year with first class honours standing will have his degree script inscribed "With Distinction" (see Academic Regulations 24 and 26).
8. At the end of the second year a Certificate of Qualification may be granted by Royal Roads Military College to any student who has successfully completed the first and second years of his program of studies at that institution.

## THE PROGRAMS OF STUDY

### General Limitations

9. The Canadian Forces reserve the right to limit enrolment in any given program of studies at any Canadian Military College, or to select the location at which a program of studies will be offered.

### Required Courses — Royal Roads Military College

10. In the first year, a student at RRMC is required to take all of the courses prescribed in the calendar under "First Year — Degrees in Arts or Administration" or "First Year — Degrees in Science or Engineering".
11. In the second year, a student at RRMC is required to take all of the courses prescribed in the calendar under one of the following:
  - "Second Year — Degrees in Arts or Administration";
  - "Second Year — General Degree in Science";
  - "Second Year — Engineering/Honours Science Degrees";
- 12a. In the third year, a student at RRMC is required to take all of the courses prescribed in the calendar under one of the following:
  - "Third Year — General/Honours Degree in Military and Strategic Studies";
  - "Third Year — General Degree in Science";
  - "Third Year — Combined Major Degree in Physics and Computer Science";
  - "Third Year — Combined Major Degree in Physics and Oceanography".
- 12b. In the fourth year, a student at RRMC is required to take all of the courses prescribed in the calendar under one of the following:
  - "Fourth Year — General/Honours Degree in Military and Strategic Studies";
  - "Fourth Year — General Degree in Science";
  - "Fourth Year — Combined Major Degree in Physics and Computer Science";
  - "Fourth Year — Combined Major/Honours Degree in Physics and Oceanography".
13. Admission into the degree programs completed at RRMC requires the satisfactory completion of second year at any CMC with the following prerequisites:
  - General Degree in Science
    - any CMC Science or Engineering program of study which includes a course in chemistry.
  - Combined Major in Physics and Oceanography
    - any CMC Science or Engineering program of study which includes courses in chemistry and Mathematics RR241, and Engineering RR232, or their equivalents. A weighted grade average of at least D + is required in mathematics, science, and engineering courses.

## **ACADEMIC REGULATIONS**

- Combined Major in Physics and Computer Science
  - any CMC Science or Engineering program of study which includes a course in chemistry and Mathematics RR241 and Mathematics RR252 or their equivalents. A weighted grade average of at least D+ is required in mathematics, science and engineering courses.
- General or Honours Degree in Military and Strategic Studies.
  - any CMC program of studies — arts, administration, science or engineering.

### **Honours Degree Program**

- 14a. Admission into the Honours Degree Program in Physics and Oceanography requires completion of "Third Year — Combined Major in Physics and Oceanography" with a weighted average of at least B in third year mathematics, science and engineering subjects. Students who have achieved less than second class honours may be admitted to the Honours program on a probationary basis with Faculty Council approval.
- 14b. Admission into the Honours Degree Program in Military and Strategic Studies requires completion of third year Military and Strategic Studies with a minimum of second class honours. Students who have achieved less than second class honours may be admitted to the Honours program on a probationary basis with Faculty Council approval.

### **EXTRA COURSES**

15. In certain years of some programs of study a student may, with the permission of the Faculty Council, register in an extra course over and above those required for the given program of study. The grade received in such a course is counted when calculating the student's overall average and class standing.

### **DRILL AND PHYSICAL EDUCATION**

16. Courses in Drill and Physical Education must be taken by all students in all years at all colleges.

### **CONTINUITY OF STUDY**

17. Under normal circumstances, a student at a Canadian Military College may not postpone a semester or a year of study.

### **CHANGES IN REGISTRATION (RRMC)**

18. Any change in registration in a program of study or in a course (including an extra course) requires the permission of the Faculty Council.
19. A student may not normally transfer from one program of study to another without having completed full prerequisite standing in the courses of the program of study he wishes to enter.

### **ATTENDANCE**

20. Students are required to attend all classes unless placed on the voluntary attendance list by the Commandant, but must attend all laboratory sessions and class tests. Individual instructor approval must be obtained prior to missing a specific lecture or tutorial.

21. A student who does not attend classes through illness or any other cause must complete term work and all assignments to the satisfaction of the department concerned.

#### **RESTRICTION OF PRIVILEGES**

22. A student who fails to maintain a satisfactory academic standing may be subject to such restrictions of privilege as may be recommended by the Faculty Council and approved by the Commandant.
23. A special student who fails to maintain a satisfactory academic standing in a given course may be withdrawn from that course upon the recommendation of the head of the department concerned, and the approval of the Faculty Council.

#### **GRADES**

24. Final grades in all courses will be reported as follows:

First Class Honours	(over 74%)	graded A
Second Class Honours	(66 to 74%)	graded B
Third Class Honours	(60 to 65%)	graded C
Pass	(50 to 59%)	graded D
Failure	(40 to 49%)	graded F
Serious Failure	(less than 40%)	graded FF

25. Aegrotat standing may be granted by the Faculty Council, upon the recommendation of the head of the department concerned, to any student or special student who has been unable to write one or more of the final examinations but who has achieved a satisfactory standing in the course or courses concerned.

#### **GRADE AVERAGE AND RANK IN CLASS**

26. At the end of each year a student's numerical grade average and rank in class will be calculated by adding together, for all courses taken, the product of the numerical grade in each course times the units of credit assigned to that course and dividing the sum by the total number of units of credit carried (including any extra courses). Final grades in courses are granted by the Faculty Board, subject to confirmation by the Faculty Council. Marks obtained in supplemental examinations may not be used to advance a student's academic grade average for the semester or year.
27. To be granted pass standing for a year, and to be allowed to continue into the subsequent year, a student must obtain a final weighted grade average over the year's work of at least D. A student must obtain a final grade of at least D in each course of his program of study (other than Second Language Training courses — see description under Department of Second Language Training); or must successfully write supplemental examinations in failed subjects (see Academic Regulations 36, 37 and 39). However, with the permission of the Faculty Council, a student who fails to obtain a D standing in one subject may carry that course or an authorized equivalent into the subsequent year. Satisfactory progress in Second Language Training courses is expected.
28. To be allowed to continue into the second semester of a year, a student should normally obtain a grade of at least D in each final examination written, or successfully write supplemental examinations in failed subjects (see Academic Regulations

## *ACADEMIC REGULATIONS*

36, 37 and 39). However, with the permission of the Faculty Council, a student who fails to obtain D standing in one subject in the first semester may carry that subject into the subsequent semester or year.

29. To complete pass standing in each semester, a student must reach a satisfactory standard in Physical Education and in Drill, and must receive a favourable report in officer-like qualities.

## **FINAL EXAMINATIONS**

30. Final examinations in each course will be held at the end of each semester at dates and times to be specified in the examination timetable, except for courses that extend over two semesters (year courses) for which the examination at the end of the second semester is normally the final examination. With the permission of Faculty Council, the requirement for a final examination in third and fourth year seminars may be waived.
31. Students taking a year course who, at the end of the first semester, wish to transfer into a program of study for which the second semester of the year course is not required may petition the Faculty Council for permission to write a final examination in the first semester's work of the year course and to retain credit for the work thus completed.
32. A student or special student may write examinations in either English or French, except that the examinations in language courses must be written in the language concerned.
33. A student or special student may be refused permission by Faculty Council to write his final examination:
  - a. in any course in which he fails to meet the requirements with regard to assignments; or
  - b. in any course involving practical work in a laboratory, if this work has been unsatisfactory.
34. All instructors will submit final grades each semester in each course in which a final examination is written. In each course, the relative contribution to the final grade of class assignments, tests, laboratory work, and the final examination will be determined by the instructor concerned, in consultation with the head of the department.
35. Final grades in courses are granted by the Faculty Board, subject to confirmation by the Faculty Council.

## **SUPPLEMENTAL EXAMINATIONS**

36. In the first semester of a year, a student may write supplemental examinations in not more than two subjects, or in not more than three subjects, providing that one of the failed subjects carries not more than one unit of credit.
37. In the second semester of a year, a student may write supplemental examinations in not more than two subjects, or in not more than three subjects, providing that one of the failed subjects carries not more than one unit of credit and that his grade average over the year's work in his program of study is D or better.

38. Supplemental examinations shall be written at dates and times to be specified by the Faculty Council and shall normally be written within three weeks of the completion of final examinations. Supplemental examinations in second language training courses are not offered.
39. To obtain pass standing in a supplemental examination, an Officer Cadet must obtain a grade of D or better, normally not including the previous term work or final examination mark.
40. Marks obtained in supplemental examinations may not be used to advance a student's academic grade average for the semester or year.
41. With the consent of the Faculty Council, and under extenuating circumstances, a special student may write a supplemental examination.

#### **FAILURE OF A YEAR**

42. A student shall fail his year if:
  - a. his overall grade average for the year is less than D;
  - b. he is ineligible to write supplemental examinations in failed subjects as per Academic Regulations 36 and 37;
  - c. he fails a supplemental examination and is not granted failed-credit standing or is not allowed to carry a failed course; or
  - d. he fails a course he has been allowed to carry.

#### **REPEATING A YEAR**

43. A student who has failed a year but who has indicated sufficient military and academic potential to succeed at a Canadian Military College may repeat the year at his own expense. Normally, a student who has failed in courses totalling as much as 50 per cent of the units of credit written in the final examinations would not be considered academically eligible to repeat. Except as noted in Regulation 44, a student permitted to repeat must repeat the entire year including any courses, or their equivalent, passed in the first attempt.
44. A student who fails his year as a result of failing his work for the first semester to the degree that he is not permitted for academic reasons to enter the second semester may be permitted to repeat the first semester at his own expense.
45. A student may repeat a year only if authorized by NDHQ on the recommendation of the Faculty Council and the Commandant.
46. A student may be permitted to repeat any year, including the fourth year.
47. A student may be permitted to repeat the second year in engineering if he has failed to qualify for engineering as required by Academic Regulations.
48. A student may repeat a year only once during his career at a Canadian Military College.
49. A student permitted to repeat a year must do so at the first opportunity.
50. A student permitted to repeat a year must carry the equivalent work load of his full program of study.

## *ACADEMIC REGULATIONS*

### **WITHDRAWAL**

51. A student who fails in more than 50 per cent of the units of work written in any semester final examinations will normally be required to withdraw.
52. A student who fails a semester or year, having previously failed a semester or year, must withdraw.
53. A student who, in the opinion of the staff, fails to develop the necessary officer-like qualities will, on the approval of the Commandant, be required to withdraw.

## ROYAL ROADS MILITARY COLLEGE

### FORMER COMMANDANTS

		Years
Captain J. M. Grant, CBE.	RCN	1942-1946
Captain W. B. Creery, CBE, CD	RCN	1946-1948
Captain H. S. Rayner, DSC, CD	RCN	1948-1949
Group Captain J. B. Millward, DFC, CD	RCAF	1949-1952
Colonel C. B. Ware, DSO, CD	PPCLI	1952-1954
Captain J. A. Charles, OMM, CD	RCN	1954-1957
Colonel P. S. Cooper, OBE, CD	L EDMN R	1957-1960
Group Captain A. F. Avant, DSO, DFC, CD	RCAF	1960-1963
Captain W. P. Hayes, CD	RCN	1963-1965
Group Captain D. B. Wurtele, CD	RCAF	1965-1968
Colonel K. E. Lewis, CMM, CD	CF	1968-1970
Captain (N) R. C. K. Peers, CD	CF	1970-1976
Colonel J. H. Roddick, CD	CF	1976-1979
Colonel G. L. Logan	RHC	1979-1983

### FORMER DIRECTORS OF STUDY

Commander K. G. B. Ketchum	1942-1945
Captain William Ogle	1945-1951
Professor L. A. Brown	1951-1955
Professor C. C. Cook	1955-1961

## **HONORARY DEGREE RECIPIENTS**

**1977**

John Moreau Grant, Doctor of Military Science  
Clennell Haggerston Dickens, Doctor of Military Science

**1978**

Charles Perry Stacey, Doctor of Military Science  
Keith Rogers Greenaway, Doctor of Military Science

**1979**

Owen Connor Straun Robertson, Doctor of Military Science  
Robert Thomas Duff Wallace, Doctor of Laws  
John William Tranter Spinks, Doctor of Military Science

**1980**

George Lawson Pickard, Doctor of Military Science  
Harry George DeWolf, Doctor of Military Science

**1981**

Henry Pybus Bell-Irving, Doctor of Military Science

**1982**

Louis de la Chesnaye Audette, Doctor of Military Science

**1983**

John Gellner, Doctor of Military Science
